

10W SOLAR CHARGER

*New Journey,
Travel with your heart*

SN-C10W
ETFE Folding Solar Charger

- 20%** High efficiency monocrystalline solar panel
- 2A** High output current peak current can reach 2A
- 5V** Stabilized voltage Protecting phones from damaged
- IPX5** Waterproof performance Rainproof, anti-splashing

When Power bank battery runs out, no matter how big the battery capacity is, it is no difference from a brick.

Above emergency situation, maybe Solar Energy can help you. By converting the sunlight into electricity, the people that have experience exposing to sunlight will understand!

PRODUCT FEATURES

- High efficiency mono solar panel
- ETFE high light transmitting film
- Deep laminated emboss layer for condensing sunlight
- Intelligent charging
- iOS auto resume charging
- No internal batteries
- Stabilized voltage output
- Waterproof, Dustproof Shockproof

High efficiency mono solar panel

We use high efficiency mono solar panel, with convert ratio more than 20%. It is one of the highest convert ratio solar wafer. The charging efficiency is high.

We use new ETFE lamination technology, and deep lamination emboss technology, has a better light transmitting, so that it absorbs more sunlight. And it is stronger, higher waterproof performance, very durable, and very long lifespan.

- Monocrystalline solar panel
Sun light conversion efficiency 18%-21%
- Crystal solar panel
Sun light conversion efficiency 16%-19%

Compatible charging, and automatically resume charging, so that the device can be fastly charged.

compatible for charging iPhone, Samsung, Xiaomi Meizu, HTC, Google, Blackberry or iPads etc. Can also charge some digital camera, or PSP, power banks, bluetooth speakers, can provide devices with the necessary current automatically, so that the charging can be very fast.

Auto resume charging

Auto resume function are suitable for iPhone series. When the sunlight is not good, or there is some cloud, the phone indicates charging stops, and when the sunlight back to normal, the auto resume function will resume charging automatically in 6-10seconds, no need to operated by user.

- Port "I"** Specially designed for charging iPhone series; With auto resume charging function
- Port "A"** Can charge for Andoird phones

waterproof dust-proof ETFE integrated lamination, more lightweight more portable

We use integrated ETFE lamination technology, lighter weight,waterproof, dustproof, and shock-resistant. It can withstand outdoor severe circumstance, the emboss on surface, can help sunlight evenly distribut to the solar wafers, helping the improvement of charging.

The advantage of ETFE film

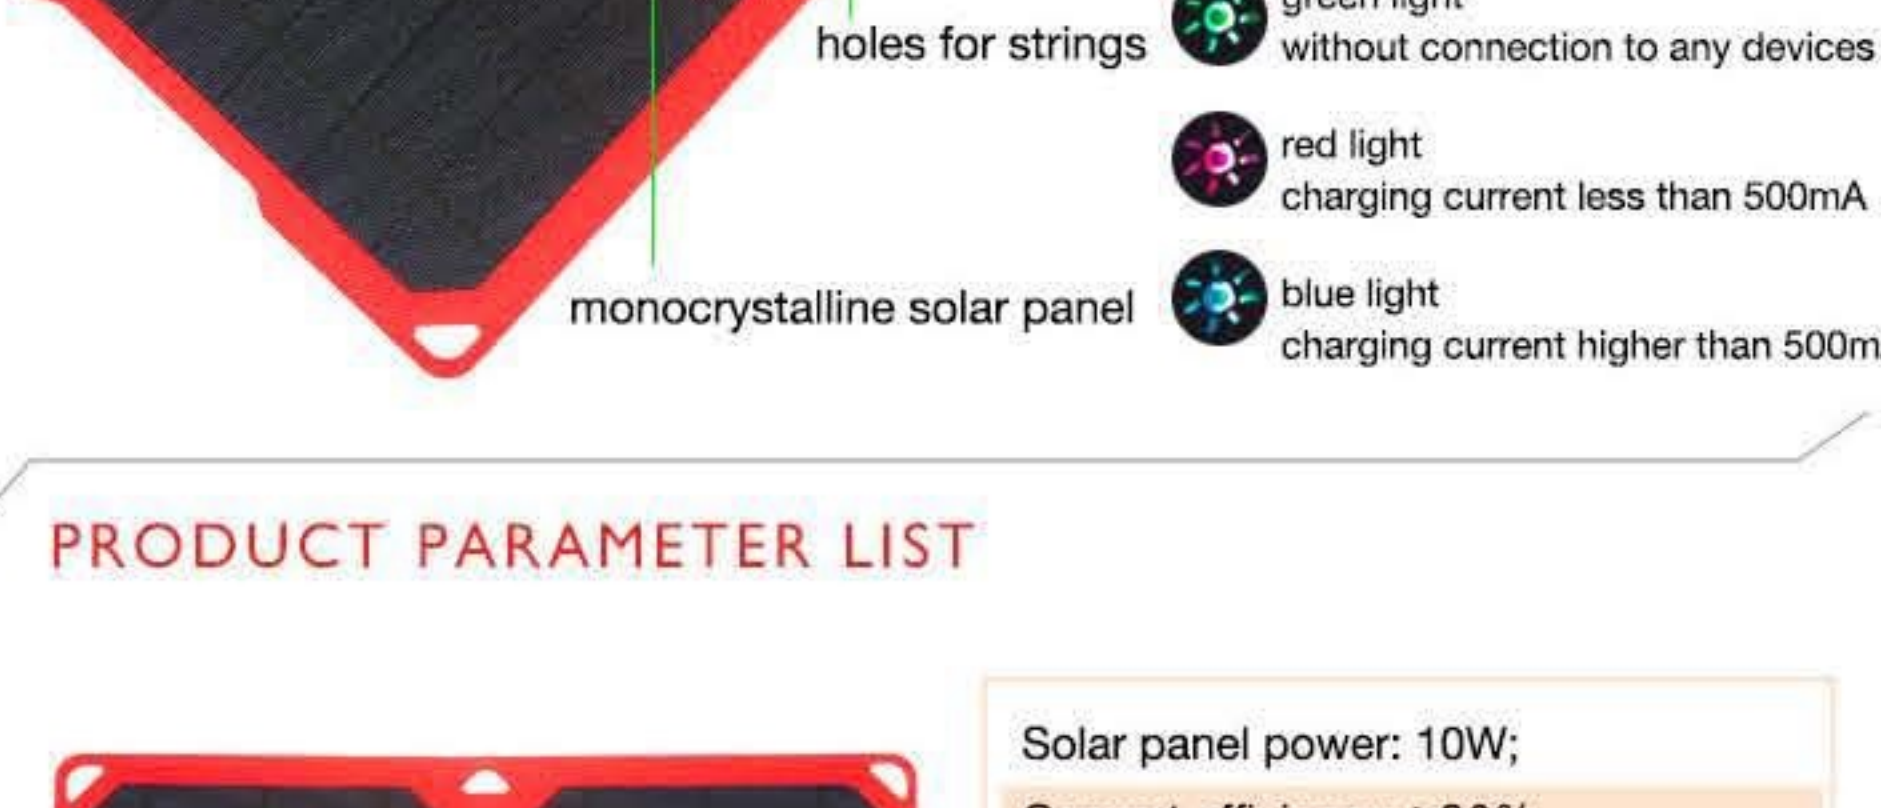

- 1, Highly dustproof, easy for cleaning;
- 2, Lifespan will be 8-12years.
- 3, Light transmitting can be 95%;
- 4, The material can be recycled or reuse;
- 5, It can be self-cleaned, the dust will not be accumulated easily.

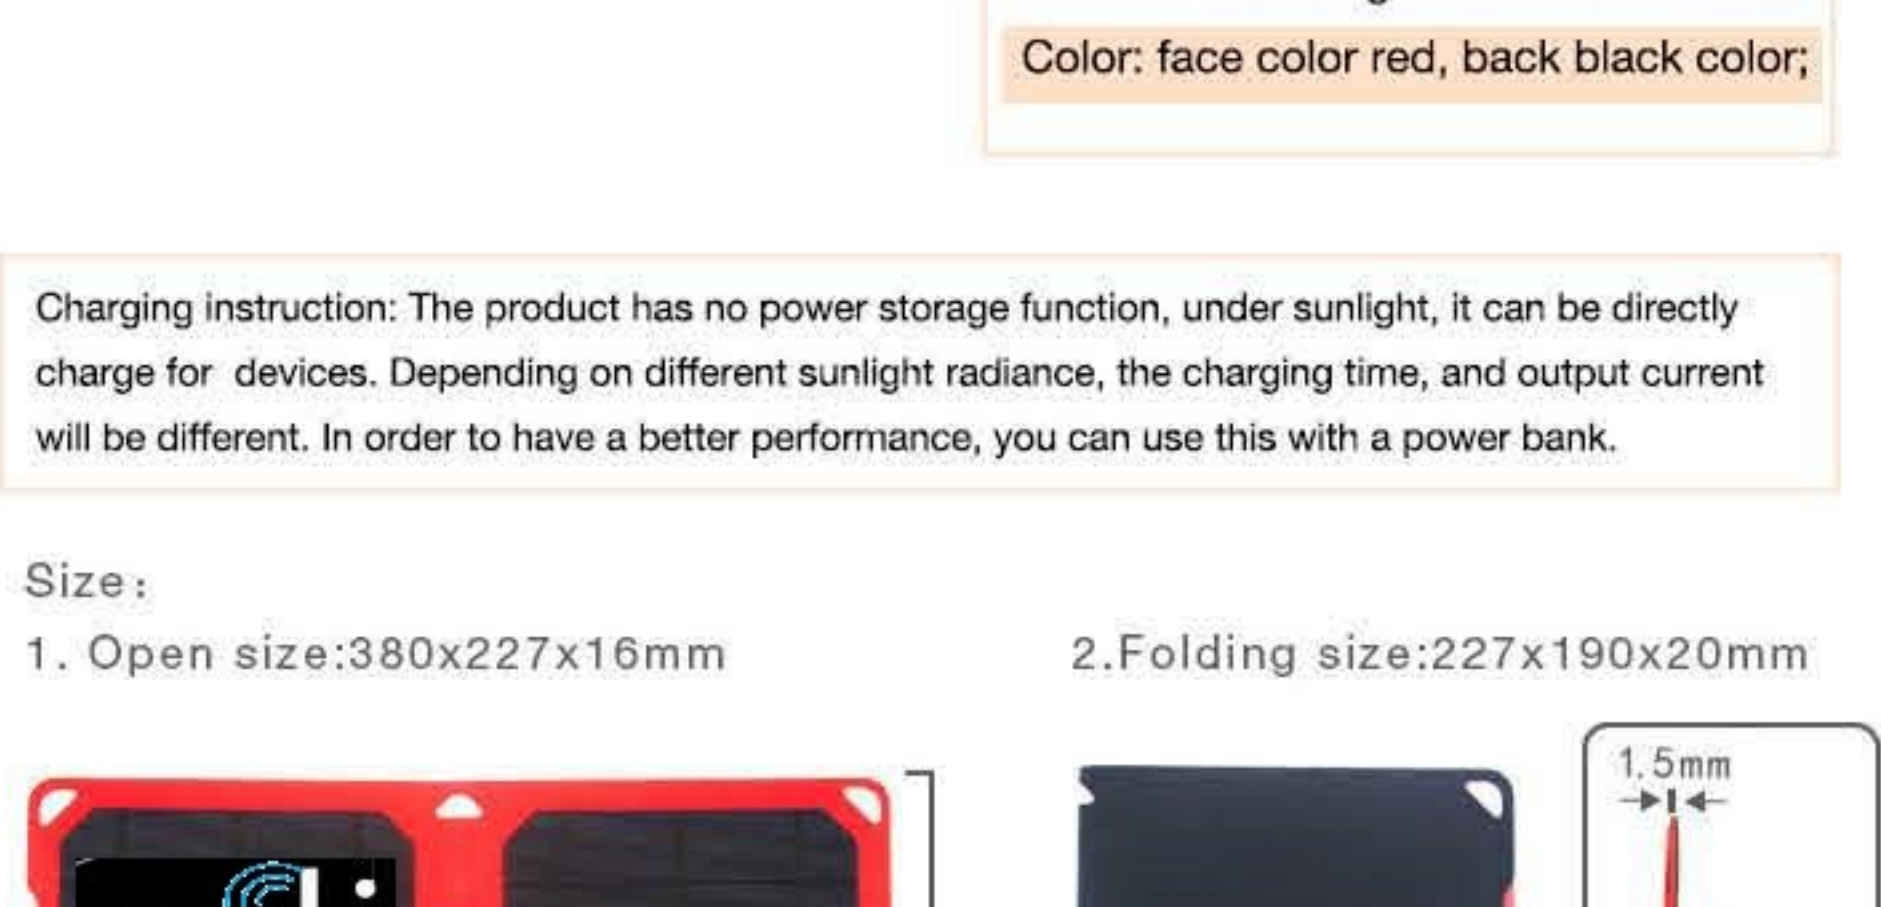

* The solar panel is waterproof, The USB connector is not waterproof

No lithium battery included Safe, and eco-friendly

Without battery inside, no need to worry any problems that caused by high temperature or sunlight exposure.

PRODUCT FUNCTION INTRODUCTION

USB dual output charge controller at the back of product.

- dustproof/waterproof rubber plug
- charging indicator
- green light without connection to any devices
- red light charging current less than 500mA
- blue light charging current higher than 500mA

PRODUCT PARAMETER LIST

	Solar panel power: 10W;
	Convert efficiency: ≥20%
	Output port: Dual USB port;
	Output voltage: 5V±0.4V
	Output current: 2A, peak current;
	Weight: 320g
	Material: monocrystalline solar panel and integrated ETFE lamination
	Color: face color red, back black color;

Charging instruction: The product has no power storage function, under sunlight, it can be directly charge for devices. Depending on different sunlight radiance, the charging time, and output current will be different. In order to have a better performance, you can use this with a power bank.

- Size:
1. Open size: 380x227x16mm
 2. Folding size: 227x190x20mm

* Because the size is measured by hand, there may be little tolerance in sizes, please refer to the actual product for accurate sizes.
