

型值表  
(单位:毫米)

Table with columns for station number (站号), half-width values (半宽值), and height values (高度值). It lists various hull dimensions across 20 stations.

主要要素

Summary table of key design parameters: Total length (总长) 79.80m, Design waterline length (设计水线长) 78.86m, Vertical spacing (垂线间长) 77.40m, Type width (型宽) 18.00m, Type depth (型深) 4.50m, Design draft (设计吃水) 3.35m, Type displacement volume (型排水体积) 3982.3m³, and various coefficients like rectangular, prism, and waterline area coefficients.

Technical drawing header and title block. It includes fields for ship name (船名 SHIP), design title (图名 TITLE), drawing number (图号 DRAWING NO.), scale (比例 SCALE), and date (日期 DATE). It also features the logo and contact information for East China Ship Design & Research Institute WUT.
