

# **Trek** electric passenger car introduction and quotation

Attractive appearance: fashion and attractive, high headlight, far range, strong penetrating power. Front, rear and side wall adopt completely closed cage structure design.

- High configuration,
- Electronic vacuum booster brake system
- Reversing image
- Four electric doors
- Warm wind system
- Super power

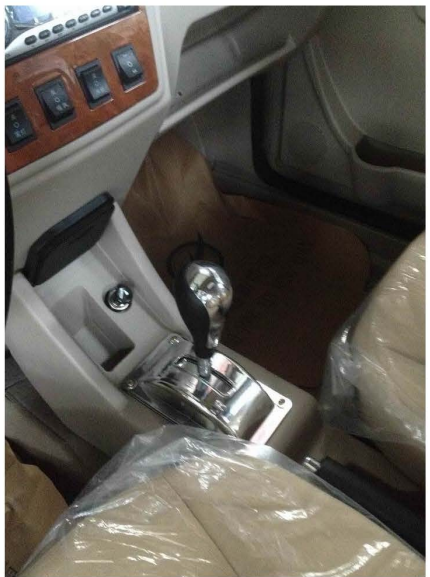

**Trek**

Turbo motor: 60V 4kw ac asynchronous turbo motor, climbing at ease. Power output is more stable, save electricity, range is more guaranteed.

Note: Product specifications configuration will be subject to real vehicle. Our company reserves the interpretation power. The pictures and information in this web is for reference only, and please pay attention to variation and modification at any time.

electric passenger car configuration table

Item	E01-Economic	E01-Extended range	E01-Standard	Optional price in USD
