2	35,357
2 ³ / ₈	24,798
2 ⁷ / ₈	16,552

Coiled Tubing Equipment

Equipment was manufactured and then delivered January 2013 and completed acceptance testing in March 2013. The equipment was deployed and used on the vessel Skandi Aker in June 2013 and was put into operations in Angola September 2013, it was actually only used on 3 or 4 well services jobs before being demobilized back to UK at the beginning of 2014.

It is currently in storage in Stavanger, Norway.

Certification would have been live from Jan 2013.
