

Product Specifications

Unit structure	luxury frame type, four wheels
Rated power	10KW
Maximum power	11KW
Rated frequency	50Hz
Rated voltage	220V
Excitation mode	brush
DC output	DC12V8.3A
Fuel tank capacity / working time	33L / 8 hours
Engine model	RZ2V78FE
Engine form	V-type twin-cylinder four-stroke, air-cooled
Cylinder diameter × stroke	2-78 × 71
Displacement	678cc
Fuel type	90# unleaded gasoline for vehicles
Lubricant model	SAE15W/40
Lubricating oil capacity	1.7L
Startup mode	electric start
Battery capacity	33Ah
Unit size	972 × 622 × 713
Packing size	1035 × 680 × 875 (Wooden box)
Net weight / gross weight	175/197

1. KOHLER series air-cooled double-cylinder gasoline generator Kohler series air-cooled double-cylinder gasoline generator
2. Reliable quality, high cost performance, low noise and low fuel consumption.
3. The twin-cylinder petrol engine runs smoothly.
4. Transistorized contactless ignition for easy start-up.
