### 3M 1860S (Small) N95 FACE MASK NIOSH Certified Face Mask

Our premium-quality disposable 3M 1860S N95 face masks are NIOSH certified (National Institute for Occupational Safety and Health). Our NIOSH approved 3M 1860S N95 face masks filter at least 95% airborne particles that are non-oil based. Our disposable N95 masks, are lightweight in construction to promote greater worker acceptance and helps increase wear time. Our N95 masks are made of several layers of special non-woven polypropylene (synthetic polymer) fabric. This fabric is produced by melt blowing and forms the inner filtration layer in the N95 mask that filters out hazardous particles.

#### FEATURES

- NIOSH approved N95
- Meets CDC guidelines for Mycobacterium tuberculosis exposure control.
- FDA cleared for use as a surgical mask
- Respirator contains no natural rubber latex
- Collapse resistant cup shape design

#### SPECIFICATIONS

- Brand: 3M
- Mask Style: Dual Strap
- Protection level: N95, P2
- Filtering effect: >99% according to ASTM F2101

### 3M 8210 N95 FACE MASK NIOSH Certified Face Mask

Our premium-quality disposable 3M 8210 N95 face masks are NIOSH certified (National Institute for Occupational Safety and Health). Our NIOSH approved 3M 8210 N95 face masks filter at least 95% airborne particles that are non-oil based. Our disposable N95 masks, are lightweight in construction to promote greater worker acceptance and helps increase wear time. Our N95 masks are made of several layers of special non-woven polypropylene (synthetic polymer) fabric. This fabric is produced by melt blowing and forms the inner filtration layer in the N95 mask that filters out hazardous particles.

#### FEATURES

- Emergency Use Authorization for Healthcare Professionals
- NIOSH approved
- Cushioning nose foam
- Lightweight construction promotes greater worker acceptance and may help increase wear time

#### SPECIFICATIONS

- Brand: 3M
- Mask Style: Dual Strap
- Protection level: N95, P2
- Filtering effect: >99% according to ASTM F2101

### 3M 8511 N95 FACE MASK NIOSH Certified Face Mask

Our premium-quality disposable 3M 8511 N95 face masks are NIOSH certified (National Institute for Occupational Safety and Health). Our NIOSH approved 3M 8511 N95 face masks filter at least 95% airborne particles that are non-oil based. Our disposable N95 masks are lightweight in construction to promote greater worker acceptance and helps increase wear time. Our N95 masks are made of several layers of special non-woven polypropylene (synthetic polymer) fabric. This fabric is produced by melt blowing and forms the inner filtration layer in the N95 mask that filters out hazardous particles.

#### FEATURES

- NIOSH approved
- 3M™ Cool Flow™ Exhalation Valve helps reduce heat build-up inside the respirator
- M-Noseclip adjusts easily for fewer pressure points and greater comfort.
- Braided headbands two-strap design with dual point attachment helps provide a secure seal
- 3M Cool Flow Exhalation Valve reduces heat build-up inside the respirator
- Spacious and durable

#### SPECIFICATIONS

- Brand: 3M
- Mask Style: Dual Strap
- Protection level: N95, P2
- Filtering effect: >99% according to ASTM F2101

### 3Q N95 FACE MASK NIOSH Certified Face Mask

Our premium-quality 3Q N95 face masks are NIOSH certified (National Institute for Occupational Safety and Health). NIOSH approved N95 face masks filter 95% airborne particles. Our 3Q mask is commonly used by hospitals, medical facilities & officially approved by the government in the USA. Best used when treating patients with airborne diseases.

#### FEATURES

- N95 Alpha mask with filter
- Filters at least 95% airborne particles
- Designed with ultrasonic welding technology for maximum comfort.
- Material: High-efficiency electrostatic filter cotton & melt blown non-woven fabric

#### SPECIFICATIONS

- Brand: 3Q
- Size: (L x W x H) 10 in x 5.9 in x 2.1 in
- Filtration Efficiency: >95%

**ALPHA PRO TECH N95 FACE MASK**  
**NIOSH Certified Face Mask**

Our premium-quality Alpha Pro Tech N95 masks are NIOSH certified (National Institute for Occupational Safety and Health). NIOSH approved N95 face masks filter 95% airborne particles. Our Alpha Pro N95 Masks are commonly used by hospitals, medical facilities & officially approved by the government in the USA.

The Alpha Pro Tech N95 mask uses an exclusive Magic Arch/Positive Facial Lock "one size fits all" design. This unique design feature permits the respirator to be "custom fit" to virtually any face, no matter what shape or size. This allows you to stock only one size for all your needs. This mask is just like the traditional N95 face mask but without the drawbacks of cone and duckbill-style respirators which restrict downward vision and collapse easily when stored.

**FEATURES**

- N95 Alpha mask with filter
- Filters at least 95% airborne particles
- Integral Magic Arch - Provides a larger breathing chamber, no restriction of downward vision as cone or duckbill masks.
- High-efficiency electrostatic filter cotton & melt blown non-woven fabric.
- One size fits all
- Helps prevent diseases and infections
- Traditional Pleated Design - saves inventory space, cannot be crushed when stored, easy to carry with you.

**HARLEY L-188 N95 FACE MASK**  
**NIOSH Certified Face Mask**

The Harley L-188 N95 Particulate Respirator Mask is foldable and easy to store and can adapt well to the wearer's facial features. The mask is NIOSH certified and so functionalities such as penetration, breathing resistance and snap strength meet or exceed the standards set by NIOSH to filter out at least 95% of airborne particles at a particle size of 0.3 microns. The respirator comes with a padded nose-piece for increased comfort.

**FEATURES**

- Two strap design provides a secure seal.
- Glue-free and odorless.
- Filters at least 95% airborne particles.
- Very comfortable face masks for long-term wear.
- PP Non-woven fabric.
- High efficiency low-resistance meltblown electrostatic cotton.
- Nose piece: Adjustable aluminum w/ padded foam
- Foldable

**SPECIFICATIONS**

- Brand: Harley
- NIOSH Approval: TC-84A-6973
- Style: Foldable

### **HARLEY L-288 N95 FACE MASK** NIOSH Certified Face Mask

The Harley L-288 N95 Particulate Respirator Mask is a semi rigid molded respirator. The mask is NIOSH certified and so functionalities such as penetration, breathing resistance and strap strength meet or exceed the standards set by NIOSH to filter out at least 95% of airborne particles at a particle size of 0.3 micron. This respirator comes with an internal padded nose-piece for increased comfort and an aluminum clasp on the outside to help with fit.

#### **FEATURES**

- Two strap design provides a secure seal.
- Adjustable metal nose piece.
- Glue-free and odorless.
- Filters at least 95% airborne particles.
- Designed with ultrasonic welding technology for maximum comfort. Very comfortable face masks for long-term wear.

#### **SPECIFICATIONS**

- Brand: Harley
- NIOSH Approval: TC-84A-7228
- Style: Molded/Cup

### **MAKRITE 9500S SMALL N95 FACE MASK** NIOSH Certified Face Mask

Our premium-quality disposable Makrite Small N95 masks for sale are NIOSH certified (National Institute for Occupational Safety and Health). Our NIOSH approved Makrite 9500S N95 face masks filter at least 95% airborne particles that are non-oil based. Our disposable Makrite 9500S N95 masks, are lightweight in construction to promote greater worker acceptance and helps increase wear time. Our Makrite N95 masks are made of several layers of special non-woven polypropylene (synthetic polymer) fabric. This fabric is produced by melt blowing and forms the inner filtration layer in the N95 mask that filters out hazardous particles.

#### **FEATURES**

- Two strap design provides a secure seal.
- Adjustable metal nose piece.
- Glue-free and odorless.
- Filters at least 95% airborne particles.
- Designed with ultrasonic welding technology for maximum comfort. Very comfortable face masks for long-term wear.
- Smaller size than Makrite 9500

#### **SPECIFICATIONS**

- Brand: Makrite
- Weight: 6.60lbs
- Size: 13.4cm x 11.4cm x 4.8cm

### **MAKRITE 9500V N95 FACE MASK (VALVE)** NIOSH Certified Face Mask

Makrite 9500V-N95 particulate respirator is NIOSH approved N95 disposal particulate respirator for reliable breathing protection of at least 95% filtration efficiency in workplaces surround by non-oil based airborne particles.

The one-way exhalation valve is designed to help reducing heat and moisture build-up inside the mask and allow fresh cool-air at each breath. Makrite 9500V-N95 respirator with exhalation valve is best applied in situation where high temperature and humidity are involved.

#### **FEATURES**

- Two strap design provides a secure seal.
- Nose Clip.
- Nose Foam.
- Glue-free and odorless.
- Filters at least 95% airborne particles.
- Low breathing resistance.
- Exhalation Valve: One way valve for easy exhalation.

### **MAKRITE SEKURA 321 N95 FACE MASK** NIOSH Certified Face Mask

Our premium-quality disposable Makrite Sekura N95 face masks are NIOSH certified (National Institute for Occupational Safety and Health). Our NIOSH approved Makrite Sekura N95 face masks filter at least 95% airborne particles that are non-oil based. Our disposable N95 masks, are lightweight in construction to promote greater worker acceptance and helps increase war time. Our Makrite Sekura N95 masks are made of several layers of special non-woven polypropylene (synthetic polymer) fabric. This fabric is produced by melt blowing and forms the inner filtration layer in the N95 mask that filters out hazardous particles.

Filter safety masks such as the N95 mask are used in the following industries: Commercial Buildings, Construction, Design & Construction, Food Processing, Food Safety, General Manufacturing, Heavy Infrastructure, Mining, Oil & Gas, Transportation, Medical Facilities, Hospitals, etc.

#### **FEATURES**

- Two strap design provides a secure seal.
- Foldable face mask
- N95 NIOSH Approved
- Comfortable Urethane Headband
- Adjustable Buckle
- Adjustable Nose Clip
- Helps protect against certain Airborne Biological Particles
- Fluid Resistant

## **BENEHAL SANICAL CUP-MODEL N95** NIOSH Certified Face Mask

Our premium-quality disposable Benehal Sanical N95 face masks and NIOSH certified (National Institute for Occupational Safety and Health). Our NIOSH approved Benehal Sanical N95 face masks filter at least 95% airborne particles that are non-oil based. Our disposable Benehal Sanical N95 masks, are lightweight in construction to promote greater worker acceptance and helps increase wear time. Our N95 masks are made of several layers of special non-woven polypropylene (synthetic polymer) fabric. This fabric is produced by melt blowing and forms the inner filtration layer in the N95 mask that filters out hazardous particles.

Filter safety masks such as the Benehal Sanical N95 mask are used in the following industries: Commercial Buildings, Construction, Design & Construction, Food Processing, Food Safety, General Manufacturing, Heavy Infrastructure, Mining, Oil & Gas, Transportation, Medical Facilities, Hospitals, etc.

### **FEATURES**

- Two strap design provides a secure seal.
- Adjustable metal nose piece.
- Glue-free and odorless.
- Filters at least 95% airborne particles.
- Very close facial fit.
- Nose foam cushioning

## **BYD N95 FACE MASK** NIOSH Certified Face Mask

Our premium-quality disposable BYD N95 face masks are FDA and NIOSH certified (National Institute for Occupational Safety and Health). Our NIOSH BYD N95 filters at least 95% airborne particles that are non-oil based. Our disposable BYD Care N95 masks, are lightweight in construction to promote greater worker acceptance and helps increase wear time. Our BYD respirator mask is made of several layers of special non-woven polypropylene (synthetic polymer) fabric. This fabric is produced by melt blowing and forms the inner filtration layer in the N95 mask that filters out hazardous particles.

### **FEATURES**

- N95 Alpha mask with filter
- Filters at least 95% airborne particles
- Designed with ultrasonic welding technology for maximum comfort.
- Material: High-efficiency electrostatic filter cotton & melt blown non-woven fabric

**UNIAIR 9550 N95 FACE MASK**  
**NIOSH Certified Face Mask**

N95 particulate respirator with polypropylene outer layer for smooth lining and avoidance of loose fibres. Collapse resistant double shell construction made to withstand hot and humid conditions. Embossed fringe seal avoids fluffy open layers around the edges. Latex-Free synthetic rubber head strap. Contour design ensures the compatibility of glasses/goggles and reduces fogging. Soft close-cell nose foam and adjustable nose piece ensures custom shape and increase worker comfort and acceptance.

**FEATURES**

- Two strap design provides a secure seal.
- Adjustable metal nose piece.
- Glue-free and odorless.
- Filters at least 95% airborne particles.
- Polypropylene outer layer provides smooth lining and avoids loose fibers.

**SPECIFICATIONS**

- Brand: SANHUI
- Weight: 4.5 (g)
- Mask Style: Dual Strap
- Protection level: FFP2
- Filtering effect: >95%
- Size: (L x W x H) 7.09 in x 4.92 in x 4.72 in

**Medical N95 FACE MASK**  
**FDA Approved Face Mask**

N95 particulate respirator with polypropylene outer layer for smooth lining and avoidance of loose fibres. Collapse resistant double shell construction made to withstand hot and humid conditions. Embossed fringe seal avoids fluffy open layers around the edges. Latex-Free synthetic rubber head strap. Contour design ensures the compatibility of glasses/goggles and reduces fogging. Soft close-cell nose foam and adjustable nose piece ensures custom shape and increase worker comfort and acceptance.

**FEATURES**

- Two strap design provides a secure seal.
- Adjustable metal nose piece.

- Filters at least 95% airborne particles.

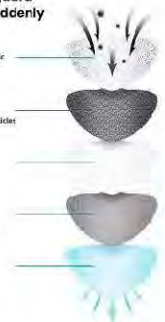

**SPECIFICATIONS**

- Brand: Sure & Me
- Weight: 6 (g)
- Mask Style: Earloop
- Protection level: FFP2
- Filtering effect: 98%
- Size: 11.8\*14 CM

**Five-layer filter guard**  
**Say no to the air suddenly**

- ONE: PP polypropylene non-woven fabric  
Filter: ≥1.5 micron dust
- TWO: EMMS activated carbon layer  
Absorb dust odor and harmful particles
- THREE: Electrostatic filter layer  
Electrostatic adsorption dust
- FOUR: N95 level meltblown layer  
Effectively filter smaller particles
- FIVE: PP plus cotton fiber inner layer  
Soak humidity and absorb large filtering particles

# DC300 DISPOSABLE RESPIRATORS

## N95 Particulate Respirators

Offered in a universal size, the DC300 is designed to comfortably fit most facial shapes while providing outstanding respiratory protection. The form-fitted mask contours with the natural shape of the face, minimizing pressure points. The molded nose bridge reduces adjustments needed to achieve proper fit and provide a secure seal.

### INDUSTRIES & APPLICATIONS

- Construction – respirable crystalline silica
- Fiberglass or Drywall Installation
- Cutting or Sanding Wood
- General Manufacturing
- Healthcare – (Non-FDA)
- Agriculture and Farming

- 20 masks per box
- 500 box minimum order
- CDC approved and NIOSH certified ([https://www.cdc.gov/niosh/npptl/topics/respirators/disp\\_part/N95list1sect3.html?fbclid=IwAR2jYwBKlArb0G\\_DXp5ejvzzZ6mLsPh6TYhsvER4-5sKweQhS4AvQq8Ueo](https://www.cdc.gov/niosh/npptl/topics/respirators/disp_part/N95list1sect3.html?fbclid=IwAR2jYwBKlArb0G_DXp5ejvzzZ6mLsPh6TYhsvER4-5sKweQhS4AvQq8Ueo))

### FEATURES & BENEFITS

- Exclusive design that minimizes the pressure points and fits comfortably on most faces
- Humidity and moisture resistant filter media that repels moisture for a longer lasting respirator
- Strong, rigid outer shell prevents masks from collapsing in high humidity
- Dual welded head straps secure the respirator comfortably on the user's face
- Latex free woven head straps reduce the possibility of breakage

# 3PE N95

## Particulate Respirator

3PE N95 particulate respirator are designed to protect the wearer from airborne particles and from liquid contaminating the face. With 5-layer filter technology, the 3PE N95 Mask will allow you to breathe clean air in any environment.

Five-Layer of Protection

Bacteria Filtration

Skin-friendly Fabric

## KN95 FACE MASK CE Certified Face Mask

KN95 face masks that are CE certified, genuine and made in accordance with industry standards. KN95 masks are 5-ply foldable masks which filter up to 95% of non-oily suspended particles of 0.3 micron levels. KN95 masks are ideal for daily use, helping prevent the spread of germs and protecting yourself from airborne particles, viruses, pollen and other allergens.

### FEATURES

- Thin and light multi-layer design reducing respiratory resistance.
- Substantial breathing area allows for sufficient airflow circulation without touching lips.
- Flexible and foldable design for extra comfort and storage.
- Soft and flexible nose bridge which can be adjusted to the face for comfort and a perfect fit.
- Two strap earloop design stretches to fit all sizes providing a secure seal.

## KN95 W/ VALVE CE Certified Face Mask

KN95 masks for sale that are CE certified, genuine and made in accordance with industry standards. 5-ply foldable KN95 masks with valve has up to 95% filtration efficiency of non-oily suspended particles of 0.3 micron levels. Ideal for daily use, helping prevent the spread of germs and protect yourself from airborne particles, viruses, pollen and other allergens.

### FEATURES

- Thin and light multi-layer design reducing respiratory resistance.
- Large breathing valve.
- Surgical Grade Material
- Flexible and foldable design for extra comfort and storage.
- Soft and flexible nose bridge which can be adjusted to the face for comfort and a perfect fit.
- Two strap earloop design stretches to fit all sizes providing a secure seal.

**POWECOM KN95 FACE MASK**  
**FDA Approved Face Mask**

POWECOM KN95 masks are FDA approved, genuine and made in accordance with industry standards. The 5-ply foldable mask has up to 95% filtration efficiency of non-oily suspended particles of 0.3 micron levels. POWECOM masks are certified to block at least 95% of non-oil particles of 0.30 microns in size, offering equivalent filtration as N95 respirators.

**FEATURES**

- Thin and light multi-layer design reducing respiratory resistance.
- Substantial breathing area allows for sufficient airflow circulation without touching lips.
- Flexible and foldable design for extra comfort and storage.
- Soft and flexible nose bridge which can be adjusted to the face for comfort and a perfect fit.
- Two strap earloop design stretches to fit all sizes providing a secure seal.

**SPECIFICATIONS**

- Brand: POWECOM
- Weight: 8 (g)
- Size: 18.5 cm x 18 cm
- 46% non-woven polypropylene, 28% melt-blown fabric, 26% ES hot air cotton.
- Mask Style: Earloop
- Nose piece: Adjustable aluminium
- Filtration Efficiency: >95%

**KN95 ARUN EUA**  
**FDA/EUA Certified Face Mask**

FDA/EUA approved KN95 face masks, genuine and made in accordance with industry standards. KN95 masks are ideal for daily use, helping prevent the spread of germs and protecting yourself from airborne particles, viruses, pollen and other allergens.

**FEATURES**

- Thin and light multi-layer design reducing respiratory resistance.
- Designed to provide a high standard of respiratory protection for the wearer.
- Flexible and foldable design for extra comfort and storage.
- Soft and flexible nose bridge which can be adjusted to the face for comfort and a perfect fit.
- Two strap earloop design stretches to fit all sizes providing a secure seal.
- Provide custom fit and secure seal for different face contours

**SPECIFICATIONS**

- Brand: Arun
- Size: 10.5cm x 16.8cm
- Filtration efficiency > 96%

# USA Made KN95

## COMFORTABLE EXPERIENCE

Soft & easy to breathe through, fluid resistant

- + 4 LAYERS OF PROTECTION
- + PFE > 95% BFE > 95%

## MEDICAL SURGICAL 3-PLY FACE MASK (LEVEL 2)

FDA Certified Face Mask

Our disposable 3-ply Medical Surgical Masks are CE Certified. Our 3 ply surgical masks level 2 are suitable for procedures with moderate amounts of blood, fluid, spray or aerosol exposure. Disposable surgical masks are made with a form fitting pliable nose and chin band.

### FEATURES

- Level 2 Surgical Mask
- High filtering ability, extremely low resistance
- Easy to breathe
- Glue free and odorless
- Earloops
- Filters dust, small particles, mist and other pollutants.
- Helps prevent diseases and infections.

### SPECIFICATIONS

- Size: 17.5 cm \* 9.5 cm
- Mask Style: Elastic Earloops
- Filtration Efficiency: >99%

## MEDICAL 3-PLY FACE MASK (LEVEL 3)

CE Certified Face Mask

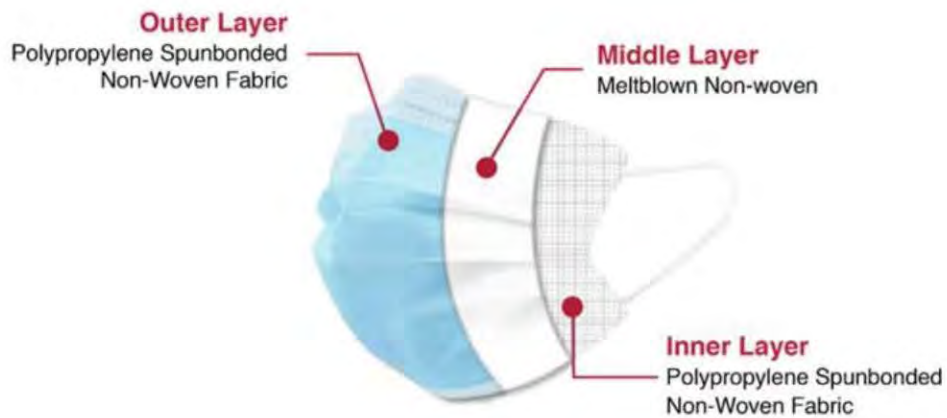

Buy surgical masks online that are CE Certified. Our disposable surgical masks are suitable for procedures with low amounts of blood, fluid, spray or aerosol exposure. Surgical masks are made with a form fitting pliable nose and chin band. Our disposable face masks for sale are also great for daily protection from allergens, protection from airborne pollutants helping you breathe easier while also protecting others from your coughs and sneezes, suitable for when running errands or visiting public areas such as grocery stores, pharmacies, parks and post offices.

### FEATURES

- High filtering ability, extremely low resistance, easy to breathe.
- Glue free face mask, odorless
- Disposable 3-ply surgical mask
- Earloops
- Non-woven
- Soft and flexible nose bridge, can be adjusted to face.
- Helps prevent diseases and infections
- Kids face masks also available.
- ATSM Level 3

## 3-Ply Masks – USA Made

These surgical masks are more comfortable to wear over longer periods of time and thus more suited for everyday use at a fraction of the cost of N95 masks.

### The Value of American Made

America's dependence on personal protective equipment (PPE) is at an all-time high. Reliance on foreign PPE to protect American citizens puts our supply chain and front-line workers at risk. We are striving to stabilize the medical supply chain and wean America off its dependence on foreign imports, while creating manufacturing jobs for our fellow Americans here in the U.S. We are seizing the opportunity to bring autonomy and reliability back to America's medical supply chain.

## KIDS 3-PLY FACE MASK CE Certified Face Mask

Our disposable mask for kids are CE Certified. Our 3 Ply Kids Masks are suitable for procedures with low amounts of blood, fluid, spray or aerosol exposure. Kids 3 Ply face masks are made with a form fitting pliable nose and chin band. Our kids surgical face masks are also great for daily protection from allergens, protection from airborne pollutants helping you breathe easier while also protecting others from your coughs and sneezes, suitable for when running errands or visiting public areas such as grocery stores, pharmacies, parks and post offices.

### FEATURES

- Kids surgical Face mask with filter.
- High filtering ability, extremely low resistance, easy to breathe.
- Glue Free Face Mask, Odorless Face Mask.
- Disposable 3 Ply Mask
- Standard Earloops

## FACE SHIELDS CE Certified

Purchase face shields online that are used by hospitals, medical facilities, and dental clinics. Our CE Certified face shields have an adjustable head harness which ensures comfortable fit for most head sizes. Optically clear, distortion free wrap around face shield. Face Shield headband foam holds shield away from face. Vented for increased air flow, floats lightly on forehead with no pressure on temples.

Our Padded Face Shields aim to protect the wearers entire face from hazards such as dust, splashes, spray, droplets and saliva. The medical face shield is comfortable to wear. Does not hurt eyes and skin. Lightweight and comfortable to wear. Fits over glasses. Suitable for most men and women.

### FEATURES

- Protects the important parts of your face.
- Extra comfort face shield with foam.
- Clear Face shield for maximum visibility.
- Distortion-free protective lens provides a natural and uninterrupted field-of-view.
- Long-wearing face shields.
- Comfortable, Durable, Quality Materials.
- Easy to clean and disinfect.

## KIDS FACE SHIELDS CE Certified

Full length kids face shields are used by hospitals, medical facilities, and dental clinics. Our CE Certified kids face shields have an adjustable head harness which ensures comfortable fit for most head sizes. Optically clear, distortion free wrap around face shield. Face Shield headband foam holds shield away from face. Vented for increased air flow, floats lightly on forehead with no pressure on temples.

Our Children's Face Shields aim to protect the wearers entire face from hazards such as dust, splashes, spray, droplets and saliva. The protective shield is comfortable to wear. Does not hurt eyes and skin. Lightweight and comfortable to wear. Fits over glasses. Suitable for most children.

Clear Protective Kids Face Shields are comfortable when worn, and can easily be disinfected or cleaned. Our face shields have fun and colorful designs children love to wear.

### FEATURES

- Protects the important parts of your face.
- Extra comfort face shield with foam.
- Clear Face shield for maximum visibility.
- Distortion-free protective lens provides a natural and uninterrupted field-of-view.
- Long-wearing face shields.
- Comfortable, Durable, Quality Materials.
- Easy to clean and disinfect.

## SAFETY GOGGLES CE Certified

Our premium-quality extra soft wide vision safety goggles offer maximum comfort without sacrificing safety. Featuring a high impact polycarbonate lens that protects against dust and debris. Anti-Dust and Anti-Splash indirect vents.

Extra Wide Safety Goggles are used in the following industries: Construction Sites, Worksites, Laboratories and Classes.

### FEATURES

- Extra Wide Safety Goggles
- Scratch Proof Coating
- Anti-Fog
- Durable Safety Goggles
- Hard Plastic Lens
- Polycarbonate lens is impact resistant.
- Dual Injected Rubber Design Conforms to the Face
- Fits over regular glasses to provide an excellent field of view.
- High level security from chemicals, dust and debris.
- Adjustable Strap, fits a wide range of head sizes.

## BLUE NITRILE GLOVES

CE Certified Gloves

Blue Nitrile gloves (commonly misspelled nitril gloves) are a great compromise between latex and vinyl. Our Industrial Nitrile gloves offer protection from bodily fluids providing a barrier that prevents infection, cross-infection or cross-contamination. Tests revealed that Nitrile gloves are three times more puncture-resistant than rubber gloves.

Nitrile gloves protect the wearer from a range of chemicals and blood borne pathogens. Our Nitrile Gloves go through an extra process of chlorinating which ease donning. Made from allergy safe compound that feels like latex, but stronger, cheaper and more comfortable. Nitrile exam gloves are the material of choice for many professional users because of its cut resistance, chemical resistance, cost, allergy safe and cleanliness.

### FEATURES

- Average thickness: 4.3 mils
- 100 gloves per box
- Ambidextrous
- Easy dispense box
- Ultimate value and incredible toughness
- Excellent tactile sensitivity
- Nitrile is resistant to oils, chemicals and acids
- Various sizes: Small, Medium, Large, XL
- Powder Free, Latex Free
- Superior Strength

## BLACK NITRILE GLOVES

CE Certified Gloves

Black Nitrile gloves are a great compromise between latex and vinyl. Our black nitrile gloves are constructed from durable 4.3 mil thick nitrile. Tests revealed that Nitrile gloves are three times more puncture-resistant than rubber gloves. Industrial grade nitrile gloves offer excellent elasticity, puncture resistance, and chemical resistance.

Our nitrile gloves will get gown and dirty as needed.

Black Nitrile gloves are professional while concealing dirt and grime. Our Nitrile Gloves go through an extra process of chlorinating which ease donning. Made from allergy safe compound that feels like latex, but stronger, cheaper and more comfortable. Nitrile exam gloves are the material of choice for many professional users because of its cut resistance, chemical resistance, cost, allergy safe and cleanliness.

### FEATURES

- Average thickness: 4.3 mils
- 100 gloves per box
- Ambidextrous
- Easy dispense box
- Ultimate value and incredible toughness
- Excellent tactile sensitivity
- Textured for confident gripping
- Crafted from durable synthetic polymer
- Powder Free, Latex Free

## LATEX GLOVES

### CE Certified Gloves

Latex Gloves have a very long history of use in many types of medical capacities. Our disposable rubber gloves have great tactile sensitivity and versatility. Latex gloves stretch and conform to the contours of your hand, giving you a snug fit - this is very important when dexterity and precision is needed for medical emergencies. This prevents the glove from moving and sliding around the hand and finger.

Our Latex examination gloves and latex surgical gloves are used in everyday situations, Superior dexterity for handling medical instruments in surgical and clinical settings. Our latex hand gloves offer maximum protection and comfort for sensitive hands.

#### FEATURES

- Beaded cuffs
- 100 gloves per box
- Ambidextrous
- Easy dispense box
- Low protein content
- Various sizes available: S, M, L, XL
- Powdered Latex Gloves
- Flexible, comfortable, easy wearing
- Superior dexterity for handling medical instruments
- Resistant to punctures, tears, rips, citrus oils, fatty meats and mild irritants.

## VINYL GLOVES

### CE Certified Gloves

When you need CovCare's disposable vinyl gloves protect the wearer from chemicals, bio hazards and other dangerous substances. High quality & extremely comfortable even if worn for extended periods of time. Vinyl Gloves can be used in many ways. Clear Gloves are made of textured high-density polyvinyl chloride. Our PVC Gloves offers the best protection from unwanted or dangerous substances.

When you need economical hand and product protection, CovCare's vinyl gloves are a great choice. Dexterity and sensitivity ensures hassle-free use.

Vinyl gloves are perfect for a variety of different uses including examinations, food handling and general cleaning tasks. Disposable vinyl gloves are powder-free so you don't have to worry about powder contamination. Our plastic gloves also contain no latex so they are good for anyone with allergies to latex.

#### FEATURES

- Thin and easy to wear
- Smooth finish with excellent tactile sensitivity
- Vinyl is a synthetic material made from polyvinyl chloride
- Anti-Corrosion
- Comfortable
- Food safe gloves
- Latex free disposable
- Non-slip

# GOWNS / SUITS / COVERALLS

## DISPOSABLE PP GOWNS (AAMI LEVEL 1) CE Certified Disposable Gowns

Our premium-quality disposable gowns (polypropylene) are used by hospitals, medical facilities, engineering, medicinal uses, etc. PP gowns (Polypropylene) are perfect for contact and minimal fluid resistance.

Generously sized for full coverage and helps keep chemicals and viruses off clothes and away from skin. Practical and stylish. Polypropylene Isolation Gowns feature elastic wrist cuffs and easy neck and waist ties.

Isolation Gowns are used to protect wearers from possible infection from the environment around them. Non-surgical gowns are AAMI Level 1 gowns are used for Minimal risk situations; for example during basic care, standard isolation, cover gown for visitors, or in a standard medical unit.

### FEATURES

- Disposable isolation gown provides full body coverage.
- Available in various colors depending on availability.
- Closed back, neck tie closure, elastic wrist cuffs.
- Durable isolation gowns.
- Keeps dust and chemicals off clothes and skin.
- No skin irritation

### SPECIFICATIONS

- 35gsm
- Color: Blue/Yellow
- Size: XL (175)

## PP+PE Gown (AAMI LEVEL 2) CE Certified Disposable Gowns

Our premium-quality PP + PE are used by hospitals, medical facilities, engineering, medicinal uses, etc. Low water resistance (resistant to water spray and some resistance to water penetration). SMS is a lightweight and comfortable non-woven fabric that provides a protective barrier.

PP/PE fluid resistant clinical gowns front and arms are 35gsm with non-woven polypropylene with a layer of impervious polyethylene for high level fluid protection. The back has 30gsm non woven polypropylene allowing excellent breathability and comfort.

### FEATURES

- Provides full body coverage
- Velcro at Neck
- Waist Ties
- Knitted Cuffs for increased comfort
- Colour Coded (blue for clinical and yellow for isolation)

### SPECIFICATIONS

- 45gsm
- Color: Blue/Yellow
- Size: XL (175)

**SMS SURGICAL GOWNS (AAMI LEVEL 2)**  
**CE Certified Disposable Gowns**

Our premium-quality SMS (Spunbond Meltblown Spunbond) medical gowns are used by hospitals, medical facilities, engineering, medicinal uses, etc. Low water resistance (resistant to water spray and some resistance to water penetration). SMS is a lightweight and comfortable non-woven fabric that provides a protective barrier.

Disposable Surgical gowns are PPE commonly used in health care. They are also using during aseptic surgery to protect medical staff and patients, effectively isolating the spread of bacteria and viruses. Disposable Surgical gowns are used by surgeons and the surgical team for many types of procedures.

**FEATURES**

- Provides full body coverage
- Closed back, neck tie closure, elastic cuffs
- Keeps dust and chemicals off clothes and skin
- Long sleeves and knitted sleeve cuffs
- Waterproof and prevents blood splatter
- Minimizes cross-contamination during surgery
- Provides protection from dirt, viruses, dust & grime.
- Test Criteria: Spray Impact < 1.0g, Hydrostatic Pressure >20cm

**SPECIFICATIONS**

- 45gsm
- Color: Blue
- Size: XL (175)

**CPE GOWNS (AAMI LEVEL 3)**  
**CE Certified Disposable Gowns**

Disposable CPE Gowns are also called disposable plastic gowns, isolation gowns or CPE gowns. CPE is an acronym for chlorinated polyethylene. CPE gowns are absolutely waterproof, and are also called disposable waterproof gowns or impervious disposable gowns.

CovCare's CPE isolation gowns features a high apron style neckline, yoke back for easy donning and fast removal. Thumb loop CPE gowns provide great protection and will help save time and stop sleeves from slipping. Our disposable isolation gowns meet AATCC 42 and AATCC 127 requirements for AAMI Level 3 requirements in all critical zones.

CPE Disposable gowns are generously sized for full coverage and helps keep chemicals and viruses off clothes and away from skin. AAMI Level 3 CPE gowns also help provide protection against high levels of fluid.

**FEATURES**

- Apron-style neck enables gowns to be placed on and off quickly
- CPE gowns are disposable
- Light blue in color
- Blood repellent
- CPE gowns are breathable
- Polypropylene material
- High level fluid protection
- Thumb loop style wrists
- Waterproof Isolation Gown

### SMS GOWN (STERILE) 510K (AAMI LEVEL 3)

CE Certified Disposable Gowns

Our premium-quality SMS Surgical Gowns (Spunbond Meltblown Spunbond) are used by hospitals, medical facilities, engineering, medicinal uses, etc. Moderate water resistance (resistant to water spray and some resistance to water penetration).

AAMI Level 3 Surgical gowns are used for Moderate risk situations; for example during arterial blood draw, inserting an intravenous (IV) line, in the emergency room, or for trauma cases.

#### FEATURES

- Provides full body coverage
- Closed back, neck tie closure, elastic cuffs
- Keeps dust and chemicals off clothes and skin
- Long sleeves and knitted sleeve cuffs
- Waterproof and prevents blood splatter
- Minimizes cross-contamination during surgery
- Provides protection from dirt, viruses, dust & grime.
- Test Criteria: Spray Impact < 1.0g, Hydrostatic Pressure >50cm

#### SPECIFICATIONS:

- 50gsm
- Sterile

### SMS SURGICAL GOWNS (AAMI LEVEL 3)

CE Certified Disposable Gowns

Our premium-quality SMS Surgical Gowns (Spunbond Meltblown Spunbond) are used by hospitals, medical facilities, engineering, medicinal uses, etc. Moderate water resistance (resistant to water spray and some resistance to water penetration).

AAMI Level 3 Surgical gowns are used for Moderate risk situations; for example during arterial blood draw, inserting an intravenous (IV) line, in the emergency room, or for trauma cases.

#### FEATURES

- Provides full body coverage
- Closed back, neck tie closure, elastic cuffs
- Keeps dust and chemicals off clothes and skin
- Long sleeves and knitted sleeve cuffs
- Waterproof and prevents blood splatter
- Minimizes cross-contamination during surgery
- Provides protection from dirt, viruses, dust & grime.
- Test Criteria: Spray Impact < 1.0g, Hydrostatic Pressure >50cm

#### SPECIFICATIONS

- SMMS Material
- 65gsm
- Color: Blue/White
- Size: XL (175)

**SMS GOWN (STERILE) 510K  
(AAMI LEVEL 4)  
CE Certified Disposable Gowns**

Our premium-quality SMS Surgical Gowns (Spunbond Meltblown Spunbond) are used by hospitals, medical facilities, engineering, medicinal uses, etc. Moderate water resistance (resistant to water spray and some resistance to water penetration).

AAMI Level 3 Surgical gowns are used for Moderate risk situations; for example during arterial blood draw, inserting an intravenous (IV) line, in the emergency room, or for trauma cases.

**FEATURES**

- Provides full body coverage
- Closed back, neck tie closure, elastic cuffs

- Long sleeves and knitted sleeve cuffs
- Waterproof and prevents blood splatter
- Minimizes cross-contamination during surgery
- Provides protection from dirt, viruses, dust & grime.
- Test Criteria: Spray Impact < 1.0g, Hydrostatic Pressure >50cm

**SPECIFICATIONS:**

- 50gsm
- Sterile

**CHEMOTHERAPY GOWNS  
(ATSM F739-12)  
CE Certified Disposable Gowns**

There is no safe level of exposure to cytotoxic chemotherapy drugs. Chemotherapy gowns are closed in the back, with a secure tape closure, to provide more protection from exposure.

Chemotherapy gowns are poly-coated for maximum protection. The gowns are lightweight, and made from non-linting fabric with long sleeves and knitted cuffs. Chemotherapy gowns also feature a closed back design for enhanced protection.

**FEATURES**

- Provides full body coverage
- Closed back, neck tie closure, elastic cuffs
- Tested against 52 chemotherapy drugs on fabric and seams
- Meets USP <800> guidelines and passed ATSM F739-12
- Resistance against fluid & bloodborne pathogen penetration
- Polyethylene coated spunbound fabric
- Full back design with tape-tab neck closure.

**SPECIFICATIONS:**

- 50gsm
- Sterile

### **MEDICAL SUIT (Sterile) (AAMI Level 2)** **CE Certified Isolation Suit**

CovCare's isolation suit offers protection against hazardous dust, and limited liquid splash. The disposable isolation suit is commonly called a Protective Isolation Suit, Hazmat Suit, Protective Suit or Disposable coveralls.

The disposable protective suit offers full body coverage when working with chemicals and contaminants. Disposable Coveralls features elasticated hood, cuffs, ankles and waist for comfort and freedom of movement. Suitable for hospital, laboratories, workshops.

#### **FEATURES**

- Full body protection
- Disposable coverall with hood
- Full pullover hood, zipper front and elastic waist
- Velcro wrist
- Ankle closures
- Washable
- One piece zip for easy access
- Medical grade & Anti Epidemic Fabric: Polyethylene PE
- Lightweight, tough and durable

#### **SPECIFICATIONS**

- Material: PP
- 40gsm
- Color: White
- Size: XL, XXL, XXL
- AAMI Level 2

### **SURGICAL SUIT (Sterile)** **(AAMI Level 3 / Level 4)** **CE Certified Isolation Suit**

Our surgical suit is disposable safety wear made of a high quality medical grade material. Features taped seams that help provide barrier protection against viruses, liquid splashes, hazardous dust and biological contaminants.

The surgical suit offers full body coverage when working with chemicals and contaminants. Disposable Level 2 Coveralls features elasticated hood, cuffs, ankles and waist for comfort and freedom of movement. Suitable for hospital, laboratories, workshops.

#### **FEATURES**

- Full body protection
- Disposable coverall with hood
- Full pullover hood, zipper front and elastic waist
- Velcro wrist
- Ankle closures
- Washable
- One piece zip for easy access
- Medical grade & Anti Epidemic Fabric: Polyethylene PE
- Lightweight, tough and durable

#### **SPECIFICATIONS**

- Material: PP+PE+EVA
- 63gsm
- Color: White
- Size: M, L, XL, XXL
- AAMI Level 3 / Level 4

## PREMIUM BLUE LAB COAT (ATSM LEVEL 2)

CE Certified

Our premium blue lab coats will provide all day comfort and protection from airborne splatter and debris. Blue lab coats are made of breathable, water-resistant, non-woven, SMS material. They have a knit collar, knit cuffs, three pockets and snap buttons.

### FEATURES

- Knit Collar & Cuffs
- Three Pockets
- All day comfort and protection
- Breathable
- Water-resistant
- Snap buttons

### SPECIFICATIONS:

- 40gsm
- Material: SMS
- Size: S, M, L, XL, XXL
- AAMI Level 2

## DISPOSABLE SHOE COVERS

CE Certified

CovCare's disposable shoe covers are designed in a generous size, to fit up to US Men's 11 and US Women's 12.5 adult shoe sizes. Our disposable overshoes are also very easy to put on with elastic band for a secure fit. The disposable shoe covers provide a barrier between footwear and the environment; helping keep floors clean, preventing contamination with no need to remove footwear.

Our Polyethylene shoe covers have a non-slip sole with good breathability. The shoe covers are comfortable with good strength and abrasion resistance. Disposable shoe covers are also waterproof and provide excellent contamination prevention between footwear and the work environment.

### FEATURES

- Thick, long lasting materials
- 35-25gsm
- Safe and durable
- One size Fits Most
- Non-Slip shoe covers
- Ambidextrous design so you can put them over both feet.
- Protects floors and carpet from dirt and grime.
- Material Weight: 25-35gsm
- Package Dimensions: 12in x 12in x 1.5cm  
(30.5cm x 30.5cm x 3.8cm)

## SMS SHOE (BOOT) COVER

CE Certified

Our SMS Boot Covers provide an excellent protection barrier between footwear and the environment. Made from triple layer SMS, these boot covers are strong and breathable, as well as splash resistant, and feature a vinyl non-skid sole. Non-skid sole available.

### FEATURES

- Breathable
- Splash Resistant
- Triple layer SMS
- Strong and Durable

### SPECIFICATIONS

- 40gsm SMS Shoe Cover
- 45gsm Anti-Skid SMS Shoe Cover
- Covers ankles and calf.
- Material: SMS

## ANTI-SKID SHOE COVER

CE Certified

Our anti-skid shoe covers are made from polypropylene and has a non-latex tread printed on the sole. This tread helps stop the covers, when worn over shoes, from slipping on floor surfaces. Primarily designed for indoor use to cover footwear and prevent cross contamination of sensitive and clean areas.

### FEATURES

- Thick, long lasting materials
- Polypropylene Spunbond Material
- Non-latex tread
- Fluid repellent
- Soft, lightweight
- Breathable, air permeable

### SPECIFICATIONS

- 30gsm & 35gsm options

## PP BOUFFANT CAPS FDA Certified

Our premium-quality disposable bouffant caps are designed to provide full hair coverage. Medical Bouffant caps are made with lightweight spunbond fabric and are designed to cover hair in no fluid contamination or light fluid contamination environments.

Our blue spunbond caps are suitable for non-fluid contamination environments, such as patient rooms, waiting areas and exam rooms. Bouffant caps are roomy and lightweight to wear, keeping hair securely tucked away.

### FEATURES

- Provides comfort and breathability.
- Keeps hair securely tucked away.
- 1-layer spunbond fabric.
- Fluid-repellent material for optimal protection
- 100 bouffant caps per box.
- Latex Free Bouffants
- Made of lightweight 10gsm spunbonded polypropylene material.
- Perfect for non-fluid contamination environments.

### SPECIFICATIONS

- Size: 18 / 21 inch
- 2000/box 68\*30\*45

## PP MOB CAPS FDA Certified

Mob caps are designed for comfort and are produced from soft, spun bound polypropylene fibre.

Suitable for food service, hospitals, laboratories, manufacturing, food hygiene, electronics and other industries.

### FEATURES

- Comfortable.
- Keeps hair securely tucked away.
- Breathable
- Various colors available
- Safe for food use

# Sanitizing Wipes

Sanitizing wipes are effective at killing viruses and bacteria on objects and surfaces. Effective at killing 99.99% of germs.

## MULTI PURPOSE ALCOHOL WIPES CE Certified

Our premium-quality multi purpose alcohol wipes are easy to use. The Alcohol wet wipes have a household/commercial grade disinfectant which helps kill 99.99% of germs. Comes in a resealable wipes dispensing pack for ease of use.

Alcohol cleaning wipes are useful for disinfecting high-touch surfaces that may become contaminated. Cleaning high-touch surfaces regularly can help keep you safe from infection. Suitable for workplaces and at home.

### FEATURES

- Each pack contains 60 cleaning wet wipes.
- Kills 99.9% of bacteria fast.
- Anti-bacterial wipes with 75% alcohol.
- Resealable dispensing pack.
- Effective sterilization and sterilization without residue.
- No bleach or hard solvents.
- Durable wipes
- Alcohol Wipes from USA
- Household/Commercial Grade Disinfectant.
- Wipe can be used on a range of surfaces.
- Made in USA

wipe size: 15x17cm 45g/wipe 100pcs wipes/package

**HAND SANITIZER 473ml / 16 fl oz**  
**FDA Certified/WHO Compliant**

Our premium-quality alcohol hand sanitizer can be applied in areas requiring a high level of hygiene; e.g. medical clinics, hospitals, schools and food preparation areas etc. Our antibacterial liquid hand sanitizer kills germs with a simple formula. No rinsing with water or drying with towels required. The most affordable prices for the best hand sanitizer.

Our hand sanitizer is formulated by chemists to ensure it rubs into skin easily. Our formulation includes moisturizer to ensure your hands do not dry out from use. Buy a hand sanitizer today that's safe to use for all ages.

**FEATURES**

- A hand sanitizer that hydrates and protects against 99.9% of illness-causing germs from hand surface without the use of water.
- Fast-acting and soothing Antibacterial Hand Gel.
- Hand gel that Cleans, Sanitizes and moisturizes on the go.
- Moisturizes and keeps skin soft.
- **Inactive Ingredients:** Water (Aqua), Glycerin, Hydroxypropyl Cellulose, Cetyl Lactate, Lauryl Lactate, Myristyl Lactate.
- 16 bottles/carton 381cm \* 379cm \* 185cm, G.W 8.6kg

Drug Facts	Purpose
<b>Active ingredient</b> Ethyl Alcohol 70%	Antiseptic
This alcohol sanitizer to help reduce bacteria that can prevent illness. Please do not use when soap and water are not available.	
<b>Warnings</b> For external use only. Flammable. Keep away from fire or heat. When using this product, avoid contact with eyes. In case of eye contact, flush eye with water. <b>Other ingredients</b> Water (Aqua), Glycerin, Hydroxypropylcellulose, Cetyl Lactate, Lauryl Lactate, Myristyl Lactate	

## EPA Registered Disinfecting Wipes

# Fresh Start® Disinfecting Wipes

Antibacterial Formula Cleans and Disinfects in One Step

### FEATURES

- **Virucidal/bactericidal/pseudomonicidal**
- **Kills HIV-1**
- **Kills antibiotic resistant bacteria: CA-MRSA, MRSA, VISA and VRE**
- **Kills flu virus**
- **Fast and effective cleaning**
- **Alcohol, solvent, and bleach free**

Use Fresh Start® Disinfecting Wipes to quickly and effectively clean and disinfect hard, non-porous surfaces.

Fresh Start® Disinfecting wipes kill COVID-19 virus on hard, non-porous surfaces such as door knobs, handrails, and tables. Fresh Start wipes will kill most viruses and bacteria on hard, non-porous surfaces including human coronavirus, MRSA, HIV-1, flu viruses, Norovirus, E.coli and more. EPA registered formula (1839-190).

Alcohol, solvent and bleach free. Each pre-moistened wipe consistently delivers the proper amount of solution without the hassle of mixing, measuring and testing. Excellent for use in hospitals, healthcare settings, schools, daycare settings and shopping areas.

# HERCLEAN DISINFECTING WIPES

EPA is the abbreviation of the United States Environmental Protection Agency (U.S. Environmental Protection Agency). Their mission is to protect human health and the environment.

- ✓ Kills the coronavirus<sup>4,8</sup> that causes COVID-19
- ✓ Kills 99.9% of bacteria in 15 seconds
- ✓ Kills Salmonella enterica, Methicillin-Resistant Staphylococcus Aureus & Flu Virus\*, \*!
- ✓ Kills Pandemic 2009 H1N1 influenza A virus\*
- ✓ Reduce risk of cross contamination between treated, hard non-porous surfaces

## PRODUCT DESCRIPTION:

EPA Herclean Disinfectant Wipes are formulated to clean and disinfect hard, nonporous surfaces in hospital and healthcare settings such as stainless steel, chrome, glass, plastic, and vinyl. This includes knobs, bed rails, monitoring equipment, telephones, light switches, and many other frequently touched surfaces. Some organisms are removed from the surface by thoroughly wiping the surface with the wipes. Most remaining organisms are killed within 10 minutes by exposure to the liquid in the wipe.

## EFFECTIVE AGAINST:

EPA Surface disinfectant wipes; Staphylococcus aureus, Salmonella enteric, Pseudomonas aeruginosa, Acinetobacter baumannii, Burkholderia cepacia, Campylobacter jejuni, Corynebacterium ammoniagenes, Enterobacter aerogenes, Enterococcus faecalis, Enterococcus faecalis- Vancomycin Resistant, Escherichia coli O157:H7, Klebsiella pneumoniae, Legionella pneumophila, Listeria monocytogenes, Salmonella schottmuelleri, Salmonella typhi, Serratia marcescens, Shigella dysenteriae.

## PRODUCT ADVANTAGE:

- Kills the coronavirus that causes COVID-19
- Wipe out 99.9% coronavirus
- Bacteria that grows in the shower/bathroom
- Disinfect in just 4 minutes
- Clean and disinfect commonly touched household surfaces
- Disinfects surfaces by killing 99.9% SARS-Related Coronavirus 2 in one-step
- Disinfecting wipes with scrubbing action
- Kills bacteria while it cleans
- Kills Cold & Flu Virus\*,
- Leaves surfaces clean and disinfected
- Kills 99.9% of bacteria in [just] 15 seconds!
- Kills 99.9% of Staphylococcus aureus, Klebsiella pneumoniae, Campylobacter jejuni in 15 seconds!
- Kills Pandemic 2009 H1N1 influenza A virus.

## Efficacy

- Hospital Grade Sterilization
- Antibacterial, virucide, fungicide, mildewstat, algacide.
- Neutralizes Toxic Chemicals
- Reduces Staph Infection
- Neutralizes Odors on a Molecular Level
- Creates Lasting Antimicrobial Barrier
- 2 year efficacy period, with turbo-charged efficacy within first 12 hours

**Kills 99.99999%  
of biological agents  
on contact**

Confirmed effectiveness against: Staphylococcus aureus, MRSA, Staphylococcus epidermidis, Salmonella enterica, Pseudomonas aeruginosa, Klebsiella pneumoniae, Proteus mirabilis, Vancomycin-resistant, Enterococcus faecalis, Enterobacter aerogenes, Escherichia coli (0157:H7), ESKL, Listeria monocytogenes, Clostridium difficile, Bacillus subtilis, Bacillus anthracis, Yersinia Pestis, Influenza Type A & B + (H1N1), Norovirus

## EPA Registration

EPA registration numbers:

- **93672-1:** NeoSan Part A - Quaternary Ammonium
- **93672-2:** NeoSan Part B - Hydrogen Peroxide
- **List N:** added 04/30/2020

This can be verified by with the EPA's List N tool [here](#). Type "93" into the query-bar, and scroll to the bottom.

## Safety

### Green Clean Certified

- Non-toxic
- Non-flammable
- No residual effect on the environment (biodegradable)
- 100% non-harmful for humans, animals, and plants.
- Non-mutagenic
- Non-carcinogenic
- Safe on all industrial surfaces
- Non-corrosive on metals

# BOTANICAL CLEANER DISINFECTANT WIPES

#101BC - 160 Wipes

**EPA LIST N APPROVED**  
Registration #34810-36-87815

#101B - 150 Wipes

**GERMICIDAL • TUBERCULOCIDAL • FUNGICIDAL • VIRUCIDAL**

**Citric acid-based Puresan Botanical Cleaner Disinfectant** germicidal wipes deliver powerful efficacy against pathogens — without the harmful, irritating effects of other chemical disinfectants — in an easy-to-use wipe format that enables one-step, no-rinse cleaning and disinfection.

## POWERFUL DISINFECTION - BROAD EFFICACY

Proven, broad spectrum, hospital-grade antimicrobial efficacy — virucidal, germicidal, fungicidal and tuberculocidal. Meets OSHA requirements for bloodborne pathogens and EPA List N criteria for use against SARS-CoV-2, the virus that causes COVID-19.

## IDEAL FOR HARD, NON-POROUS SURFACES

Formulated for fast, effective cleaning and disinfection of hard, nonporous surfaces such as stainless steel, chrome, glass, plastic and vinyl. Ideal for use on door knobs, bed rails, monitoring equipment and other digital monitors, telephones, light switches, faucet handles and other high-touch surfaces.

## CITRIC ACID-BASED — NON-IRRITATING

A better alternative to quat-, alcohol- or bleach-based disinfectants. **EPA Category IV (lowest level of toxicity) requiring no precautionary statements or PPE — will not irritate skin, eyes or lungs.** Highly biodegradable ingredients, leaving no harmful or irritating residues.

## ONE-STEP CLEANING & DISINFECTION

Proven efficacy in the presence of 5% organic soil load. 5-minute contact time for disinfection; 1-minute contact time for sanitization. Enables one-step cleaning and disinfection — no pre-cleaning or post-rinsing steps required.

**HOSPITAL  
GRADE**

**NO HARSH  
CHEMICALS**

**NO SIGNAL  
WORDS**

# SONO<sup>®</sup>

## HEALTHCARE

- EPA List-N: Labeled to be Eligible for Claims Under the EPA Emerging Pathogen Policy
- Easy clean-up. Top quality fabric with antibacterial formula, disinfects while cleaning up messes. Textured to pick up particles. Cloths quickly remove dirt, spots, and smudges while killing 99.9% of germs, bacteria, and viruses
- Machine protection. Non-abrasive, non-damaging ultrasound wipes keep equipment looking like new
- Convenient packaging. Dispenses wipes like a tissue. Just pull, wipe, and toss
- Deodorizes and leaves the room smelling fresh

**INFRARED THERMOMETERS**  
CE Certified Thermometers

Our advanced infrared temperature gun is easy to use. It uses an infrared detector to detect body temperature from the temple for adults & children and can be used both at home and hospitals. The non-contact infrared thermometer is designed for practical use. It can also be used to measure any temperature other than human body, such as the room temperature or liquids.

Our digital thermometers not only support forehead or ear function, but they can also obtain the surface temperature of any object. Our IR Thermometers are widely used in hospital, factory resumption, office building, shopping malls or at home.

Our digital infrared thermometer is designed specifically to take a persons body temperature without physical patient contact.

**FEATURES**

- Weight: 125 (g)
- LCD Display, Backlit Display, clearly visible under any light
- Comfortable grip handle. Buttons and trigger designed for one hand operation.
- Measure surface temperature without contact. Reducing cross contamination, minimizes risk of spreading diseases.
- Measuring time: Results in just 0.5 seconds
- Measuring distance: 5-15cm
- Size: 100 x 46 x 160 mm (Length \* Width \* Height)
- Dual Mode C/F Switchable
- Easy to clean and disinfect

# COVID-19 TEST KITS

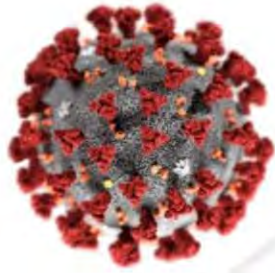

## FDA COVID-19 TESTING KITS FDA Certified

Our premium-quality Coronavirus Instant Test Kit (COVID-19 Testing Kits) detect a presence of IgM & IgG\* antibodies of the COVID-19 virus. The COVID-19 Rapid Test Device utilizes lateral flow technology that is used for the detection of both anti-SARS-COV-2 IgM and IgG antibodies. Antibodies can be detected 1-3 weeks after infection. This COVID-19 test is intended to screen patients for COVID-19. Buy coronavirus tests today!

### FEATURES

- Rapid results under 10 minutes
- Shelf Life: 24 months from date of manufacture
- Specimen: Whole blood, serum, plasma
- Sensitivity: IgG 97.2%; IgM 87.9%
- Specificity: IgG 100%; IgM 100%
- FDA Emergency Use Authorization (EUA)
- CE Approved

# SolGent *DiaPlexQ*<sup>™</sup> Novel Coronavirus (2019-nCoV) Detection Kit

Real-Time One-Step RT-PCR based assay system  
for detection of SARS-CoV-2

*DiaPlexQ*<sup>™</sup> Novel Coronavirus (2019-nCoV) Detection Kit

## *DiaPlexQ*<sup>™</sup> Novel Coronavirus (2019-nCoV) Detection Kit

### 1. Features

- Multiplex OneStep qRT-PCR
- Hot Start PCR system by using optimized Hot Start polymerase
- Commercial Real-time PCR Instrument available
- High specificity: simultaneous detection of **ORF1a and N gene**.

### 2. Detection Targets

- Simultaneous Detection of ORF1a / N gene
- CDC 2019-Novel Coronavirus (2019-nCoV) Real-time qRT-PCR Panel Primers and Probes  
High specific targets were selected based on the Chinese CDC and US CDC.

1. KIT HS Code : 3822.00.10
2. Kit Specification : Kit Box (100test) Size : 95 \* 55 \* 60mm
3. kit require special storage : Required refrigeration (-25 ~ -15 °C)
4. Expiration Length : Validity 1 year
5. Time to extract results : 1 hour 45 minutes

# SANISOLE

## SANITIZER MATS

### DESCRIPTION

SaniSole is a specially designed door rubber mat that disinfects the soles of shoes when stepped on it. This easy to use rubber mat helps individuals in removing significant number of germs and other potentially harmful micro-organism on the bottoms of shoes. It is an effective shoe sanitization method to reduce the spread of the germs using disinfectant/ sanitizer of your choice.

# CRITICAL CARE MEDICAL EQUIPMENTS

## VENTILATOR

Brands - Philips, Proton Plus, Aeon Med, Care Fusion, Orion G

## HIGH-FLOW NASAL CANNULA

Brands - Fisher & Paykel, BMC

## BIPAP

Brands - Philips, BMC

## ECG MACHINE

Brands - Philips, Contec, Biomedics

# CRITICAL CARE MEDICAL EQUIPMENTS

## MULTIPARA MONITORING

Brands - Philips, Contec, Biomedic

## DEFIBRILLATOR

Brand - Philips

## ABG (BLOOD GAS ANALYZER) MACHINE

Brands - Siemens

## SYRINGE PUMP

Brands - BPL, EMCO, Plenumtek

# HOME CARE MEDICAL DEVICES

## OXYGEN COCENTRATOR

Brands - Philips, Contec, Eloxy, Oxy-med

## AUTO BP OPERATOR

Brands - BPL, Omron

## FINGERTIP PULSE OXYMETER

Brands - BPL, Technocare

## GLUCOMETER

Brands - Contec, Accu-chek, Control D

# HOSPITAL FURNITURE

## ICU BED

- Easily removable polymer moulded head and foot end boards for easy access to patients
- Minimum height of 420 mm for the convenience of patients to get in and out of the bed
- Auto contour button on patient handset prevents the forces urging on the patient's foot end while giving the backrest position
- Clear access to bed from bottom and top for effective bed cleaning
- Heavy duty IV pole for syringe pump
- Four non-rusting 125 mm dia. Polyurethane casters 2 with brakes and 2 without brakes

## FOWLER BED

- Stainless Steel head & foot board
- 60 mm \* 30 mm Approx CRCA rectangular tube frames
- Four section perforated CRCA sheet top
- Two separate screws for backrest and knee rest position by individual SS folding handles
- Four flush I.V. locations
- Urine bag holder
- Pretreated & epoxy powder coated

# HOSPITAL FURNITURE

## MEDICINE TROLLEY

- Overall approx : size: 990mm L X 490mm D X 1600mm H
- CRCA tubular framework
- 12 no's colored bins
- SS I.V.Rod and Cardiac massage board
- Five no's CRCA sheet drawers
- Two I.V. bottle storage trays
- SS Handle
- Oxygen cage attachment
- Trolley mounted on four non-rusting 125 mm dia. Polyurethane Wheels, 2 with brakes and 2 without brakes

## OPERATION TABLE - SS

- SS top with Kidney bridge
- Detachable & folding foot end
- Height adjustment & head low/up by screw mechanism with SS folding
- Lithotomy Straps (Code: 519) padded armboard
- Step Stool (Code: 517)
- Mattress
- Optional Accessories : Lithotomy crutches
