

Product description
ROVER

Product application

Glamping

This is the future trend of the lodging industry, a brand-new vacation model, which can be combined with outdoor camping, high-end customized tourism, and other projects.

Theme Park

Create a theme IP park, and the ROVER can be used as a sci-fi series theme accommodation unit, which can be combined with study tours, parent-child education, team building development, immersive AI education, and other projects.

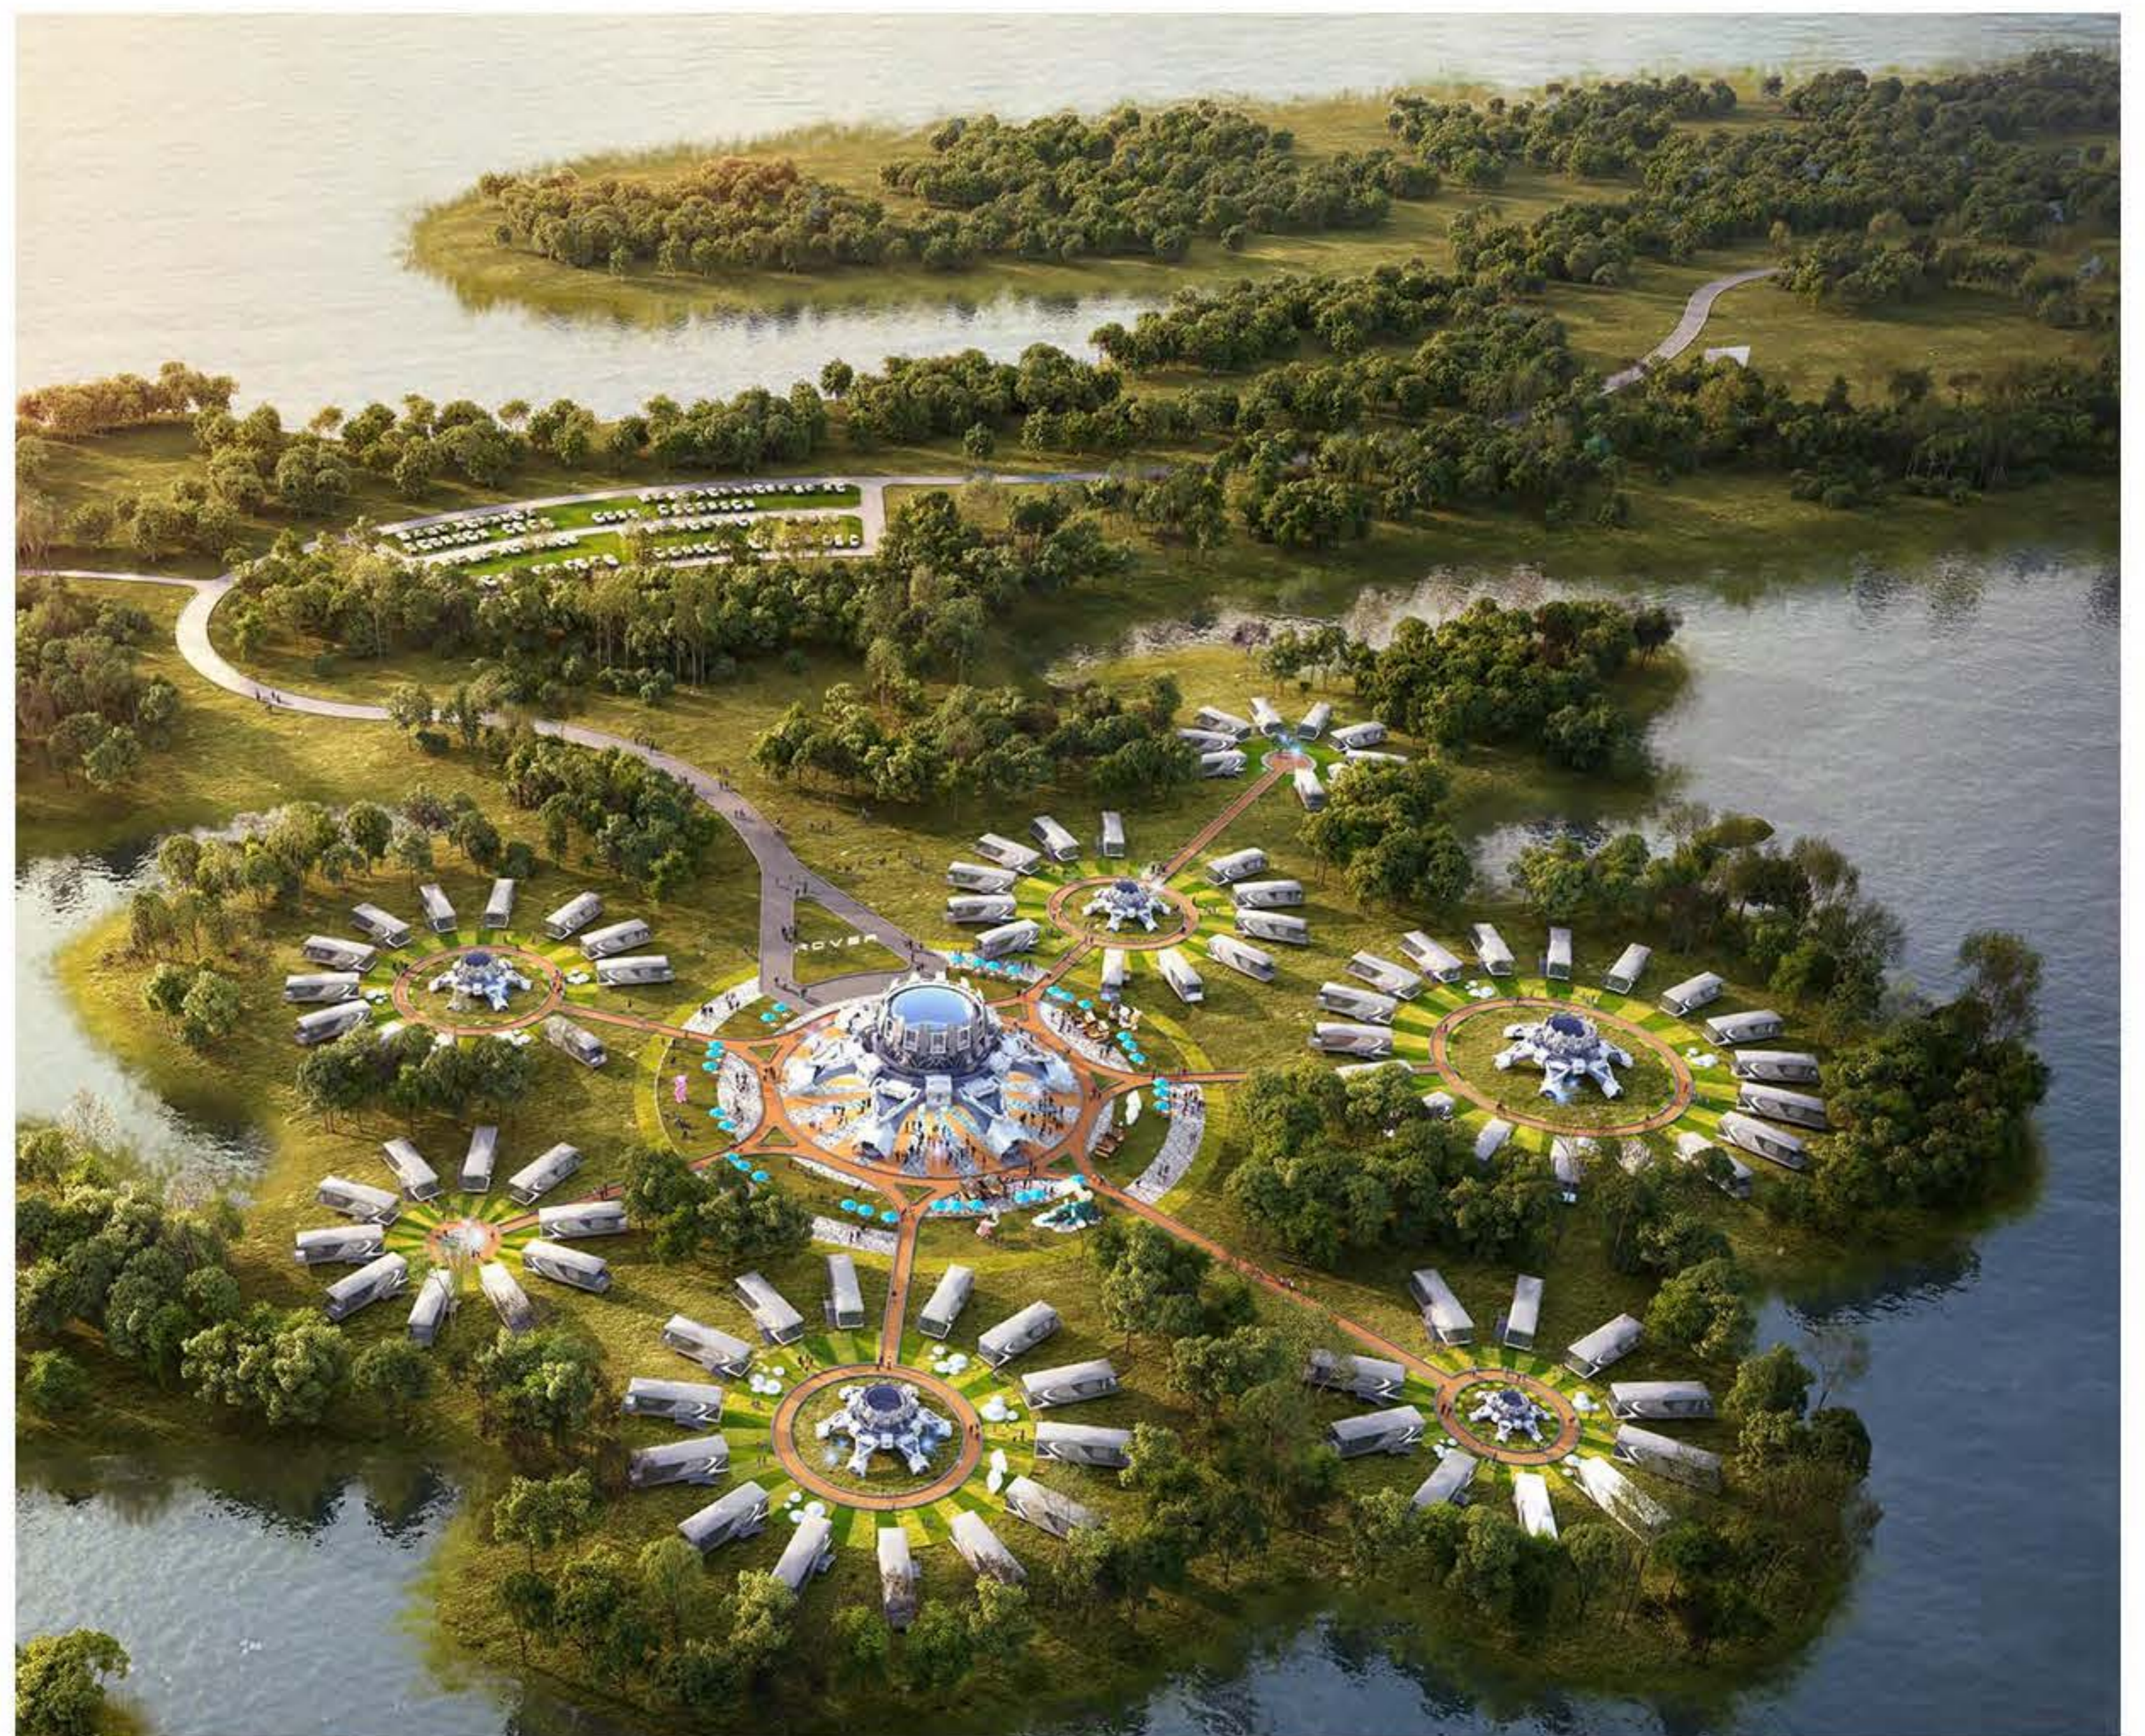

ROVER

Glamping

As a high-end vacation product in the wild, the ROVER is a cost-effective accommodation cabin designed based on the concept of living in unlimited terrain. The panoramic floor-to-ceiling windows and the unique and beautiful shape design make the accommodation product itself becomes an online celebrity product and check-in point. The whole house is decorated in accordance with the standard of a five-star hotel, allowing visitors to enjoy a high-end experience in the wild.

Scene display - No fear of snow or frost

Special heat preservation and cold protection design, no fear of environmental conditions, the lowest temperature can be minus 30 degrees.

Interior decoration drawing

The whole house adopts Xiaomi intelligent control system, high quality, low energy consumption, and full intelligence.

Rover Standard Configuration List

Product parameters:

Product model: ROVER sci-fi version

Dimensions: length 11.5m*width 3m*height 2.8m

Occupancy: 4 people

Maximum power consumption: 15KW

Total net weight: 8 tons

Construction area: 34.5m²

Balcony area: 4.75m²

Bath room area: 3.45m²

Children's room area: 8.32m²

Bedroom area: 12.74m²

Rover Standard Configuration List

Category		Standard configuration	Configuration instructions	Quantity
Basic configuration	Structural system	Framework system	ROVER patented earthquake-proof steel structure system	1 set
		Peripheral protection system	Aluminum alloy decorative panel module	1 set
		Insulation system	70mm thick thermal insulation waterproof and moisture-proof structure	1 set
		Glass curtain wall	8 high light transmission LOW-E+12A+8 hollow tempered glass	1 set
		Balcony glass railing	6+1.14PVB+6 laminated glass	1 set
		Entrance door	Stainless steel heat-insulating outside-opening casement door (including access control)	1 fan
		Balcony door	8 high light transmission LOW-E+12A+8 hollow tempered glass door	2 fans
		Integrated equipment room	Hidden outdoor equipment room, quick disassembly access	1 set
		Shell garland	ROVER designed garland and LOGO, support customer customization	1 set
	Indoor hard outfit	Ceiling	Standard color prefab module	1 set
		Interior wall finish	Standard color prefab module	1 set
		Surface finish	Environmentally friendly composite floor	1 set
		Hanger	ROVER integrated clothes hanger	1 piece
		Washbasin	ROVER integrated bathroom sink	1 piece
		Bathroom mirror	ROVER integrated bathroom wall hanging mirror	1 pair
		Shower glass door	ROVER integrated tempered glass casement door	1 set
		Electric box	ROVER integrated electric box	1 set
	Lighting system	Living room, bedroom ceiling lights	Ceiling 3000K warm yellow light low pressure safety light belt	1 set
		Living room, bedroom lighting	Philips 4000K neutral light spotlight	8 pcs
		Toilet lighting	Philips 4000K neutral light spotlight	2 pcs
		Bathroom mirror atmosphere light belt	3000K warm yellow light low voltage safety light belt	1 set
		Outdoor modeling atmosphere light belt	3000K warm yellow light low voltage safety light belt	1 set
	Hardware Parts	Bathroom heater	Brand bathroom	1 set
		Basin		
		Faucet		
		Shower		
		Toilet		
		Floor drain	Submarine floor drain	2 pcs
		switch panel	Schneider switch panel	1 set
		Socket panel	Schneider brand socket panel	1 set
		Curtain	Standard electric light gray blackout curtains	1 set
	Additional configuration (optional)	Electrical equipment	Air conditioning	Gree 3-hp frequency-conversion air conditioner
Water heater			Germany Spoyatron plug-in instant water heater	1 set
Fresh air system			Panasonic PM2.5 three-in-three-out new silent fresh air system	2 sets
Floor heating		Floor heating	22mm thick 250W/m ² electric floor heating	1 set
Smart system		Situation panel	One-click experience of 4 home modes	1 set
		Smart lighting	Whole house intelligent lighting control	
		Smart curtain	Intelligent curtain control	
		Audiovisual system	Whole house Bluetooth audio equipment system with MP3 panel
