

90.000 HOSPITAL PRODUCTS AND SUPPLIES
2.000 SQUARE METERS OF WAREHOUSE
20 INTERVENTION AREAS
32 COUNTRIES FOR EXPORT

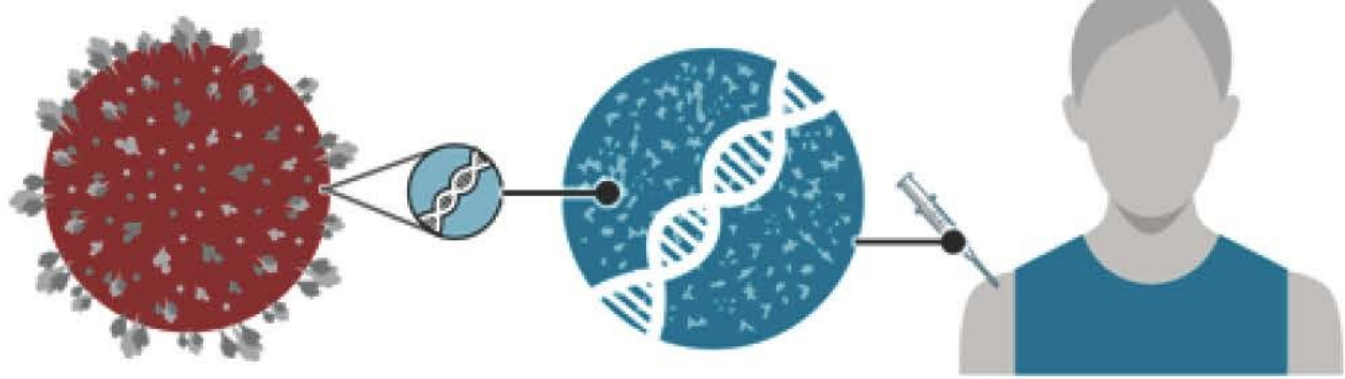

WE ARE SPECIALISTS IN THE AREA OF TRADE AND DISTRIBUTION OF MEDICINES, MATERIAL AND HOSPITAL EQUIPMENT. WE HAVE BEEN IN THE MARKET FOR 25 YEARS, CONSTANTLY ATTENTIVE TO TECHNOLOGICAL DEVELOPMENTS AND NEWS, WITH THE MISSION OF OFFERING OUR CUSTOMERS CUTTING EDGE AND HIGH QUALITY PRODUCTS.

AstraZeneca

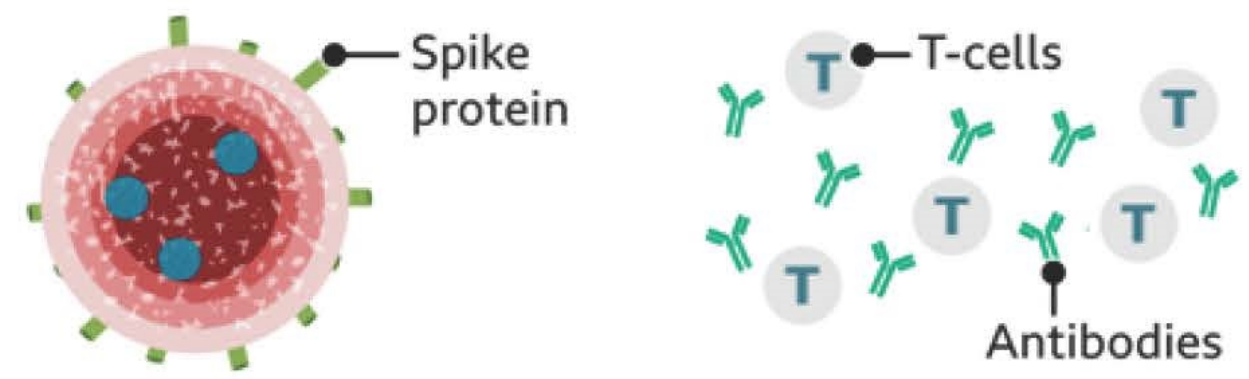

1 Scientists take genes for the spike protein on the surface of the coronavirus and put them into a harmless virus to make a vaccine

This is injected into the patient

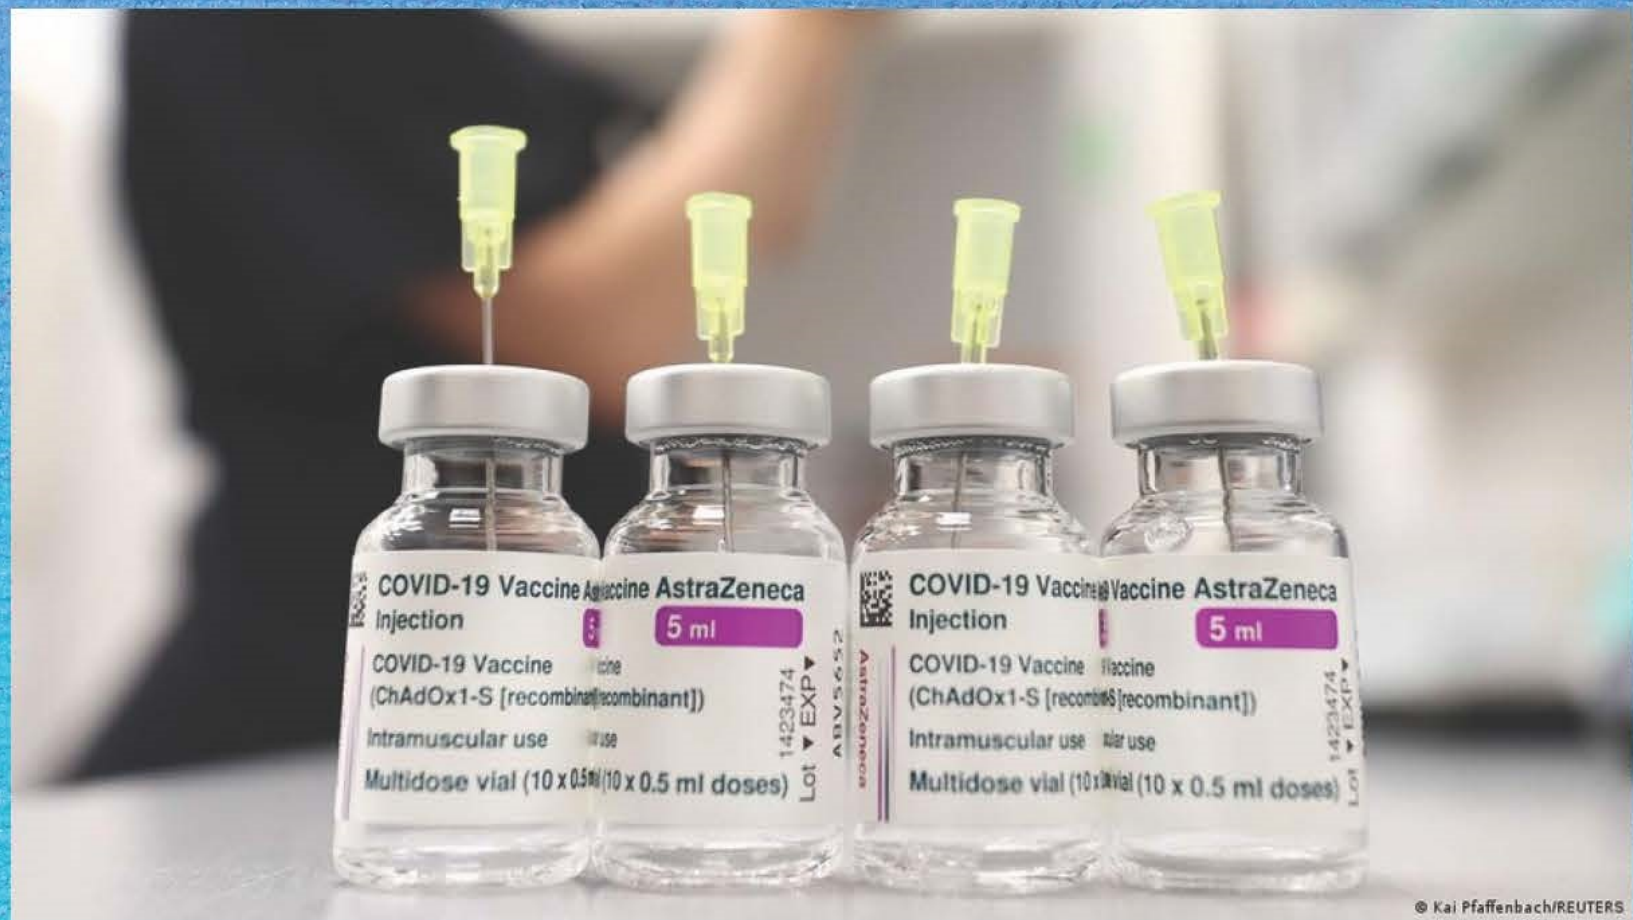

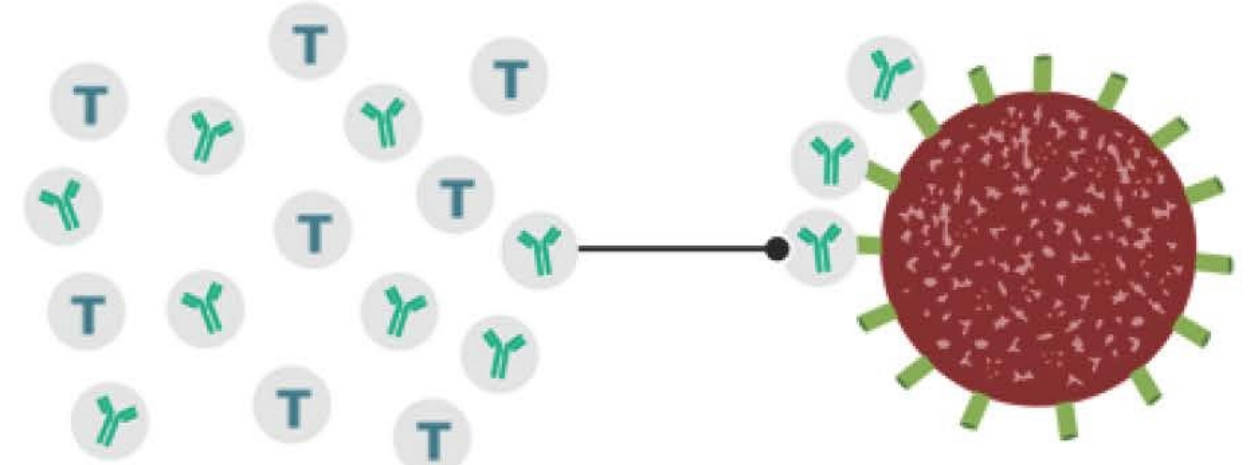

2 The vaccine enters cells which then start to produce the spike protein

The body's immune system reacts, produces antibodies and activates T-cells to destroy cells with the spike protein

3 If the patient later catches coronavirus, antibodies and T-cells are triggered to fight the virus
