

CREMATION MACHINE QUOTATION SHEET

	ITEM NO	KRS3000-062
		
	FOB QINGDAO	US\$63520.00 (second hand container) US\$65500.00(new container)
	OUT DIMENSION	same as the container
INNER CHAMBER SIZE	800*700*2100MM	
CHAMBER DOOR SIZE	800*500MM	
G. W	20T(including the container)	
OIL CONSUMPTION	30-40L/H	
CREMATION TIME	40-70MINUTES PER BODY	
TOTAL POWER	18KW	
WORKING TEMPERATURE	700-900℃	
BURNING FUEL	diesel	
WORKING VOLTAGE AND FREQUENCY	380V, 50HZ or 110V-220V, , 60HZ, 3 PHASES could choose the one used in your place	
MATERIAL AND THE PART FEATURE	<p>The inside of this pick ashes cremation machine adopt GB standard proximate material combining new refractory materials, appearance made of standard shipping 40HQ container steel material package, equipped with the lifting cart, lift cooling cover, main combustion chamber, oven door system, flue system, oil supply system, air supply system, induced draught system, and the electric control system.</p>	
warranty	<p>1. electric appliance:1 year 2. bed surface:500corps 3. herath:2 years 4. burner:2 years 5. control system:2 years</p>	

The feature of this cremation machine

1. the structure feature:

the machine finish the whole installation at plant and export directly ,no need the assembling in work place.

2. electric material:

mainly use the imported kind to make sure the longer life and the easy change for maintain if in need.

3. thermal insulation properties

adopt the newest thermal insulation material, good insulation effect, long life, no moving, no damage and no subsidence during the transportation.

4. electric control system

the operation system adopt the CNC touch screen, nice looking, easy operate, and advanced, also prepare the traditional switching control mode to keep the stability of the machine.

MOQ: one set

Payment terms: 50%TT in advance, 50%TT before shipment

Delivery Time: as quantity, common is 30 days more or less.

The quotation is valid in one month
