LOOK WHAT'S NEW

The display stand is filled with various cosmetic products. The top shelves feature numerous perfume bottles in various colors and sizes. Below these, there are shelves with lotions, creams, and other skincare products. The middle section of the stand is dedicated to makeup, with shelves displaying a variety of eyeshadow palettes, blushes, and lipsticks. The bottom shelves contain more skincare products, including cleansers, toners, and moisturizers. The stand is illuminated from within, highlighting the products and the central panel.
