

Abilities

- R&D Ability:

First-class composite armor R&D team ,has made a large number of important achievement to National defence of China and worldwide customers in need of body and Vehicle armor.

- Testing Ability:

One of three authorized labs in China equipped with all kinds of handgun,rifle, 7.62mm-30mm caliber ballistic gun and ammunition,and 300 sets of testing and measuring equipment.

- Production capacity: highest efficiency by complete production lines,hard armor plate :20000 pcs/month,bulletproof vest:10000 pcs/month,bulletproof helmet:20000 pcs/month.
- Quality Cetification: ISO 9001-2018 NIJ Certificated testing report

Product

Internal Ballistic Vest Series

Designed to be worn under conventional clothing, however it can also be worn over the shirt as a lightweight over vest. The vest is donned over the head and closed by side strap fastenings.

Features:

- Simple Velcro Closure to sides
- Adjustable Shoulder straps
- Comfortable polyester cotton material
- Breathable lining for comfortable wear
- Available from size Small to 3 XL and customized color
- Light weight and soft ballistic panels

External Ballistic vest Series

External ballistic vest will include protective vest and tactical vest , the former is without Molle system, tactical vest is with Molle columns, BUT BOTH with IIIA ballistic soft panels and hard Armor plate pockets. Vest offers Front, Rear protection, Side, Neck, Shoulder protection is optional, and can offer NIJ Level IIIA protection ,Level III and Level IV protection with H.a.p. .

External Series – Protective Vest

Features:

- Quick and Comfortable Adjustable Shoulder strap
- Simple Velcro Closure to sides
- Pockets Front and Back for additional hard armor Plates
- Soft vest is NIJ IIIA level ,NIJ III OR IV with hard Armor, neck shoulder (optional) ,front and rear protection
- Custom sizing and colors available
- Optional carrier fabric:600D Polyester,500D Nylon,Cordura
- Ballistic PE /Aramid UD soft panels

External Series – Tactical Vest

Features:

- Tactical Molle System 360 degrees
- High Quality Fasteners, Buckles, Loops, zippers for enhanced longevity
- Inner Netting for Perspiration
- Pockets Front and Back for H. A. P. to NIJ III & IV
- Tactical Cummerband
- Nylon 500 or 1000D
- Quick release system (Optional)
- Ballistic PE /Aramid UD soft panels

Full Protection Military Vest Series

Full Protection Military Vest Series is a functional vest with optional modular system. The vest is specifically designed for soldiers in high threat, hostile fire situations, to reduce the risk of fatal injury to the vital parts of the human.

Features:

- Optional throat shoulder and upper arm protection,removable groin part
- 360 Molle System & Inner netting Perspiration
- Tactical Cummerband
- Nylon 500 or 1000D
- Available from size Small to 3 XL and customized color
- Pockets Front and Back for hard armor Plates to NIJ III& IV
- Ballistic PE /Aramid UD soft panels

Hard Armor Plates Series

a long time supplier of Hard armor plates and has rich experience in volume produce and export. body armor plates are designed for a wide range of protection levels, size, shapes (single-curve and multi-curve), and fit to a wide array of bulletproof vest and tactical carrier regularly tests these at ballistic labs worldwide and are noted for its level III ,level III+, Level IV ballistic plates.

Hard Armor series
