

We make Water from Air

DA

Unit designed to meet high needs and optimal distribution. Offices, hospitals, local authorities, agriculture, industry, tourism, rescue...

One of the simplest & fastest production launches

- 1 Position the Generator Container
- 2 You open the panels
- 3 You connect to the electrical source

PURE WATER PRODUCTION BEGINS

Production*

1,2,3

And you have

3000

Liters pure water
per day

Storage capacity* : 2500

Raw water tank : 1200

Purified water tank : 1300 liters

Tank type : Stainless steel

Input current : 415VAC/50Hz, 3 PH

Power consumption : 40 Kw

Purification steps : 4

Water filter : UF + Ozone

Machine type : indoor – outdoor

Dimensions of machine :

H x W x L en mm : 2600 x 2500 x 6100

Weight in kg : 6000
