

New for 2024 2 storey Foldable office container house

We are a direct to the leading container factory in China with many years' experience in container house export business. formally established in 2013. One of the core business of our company is container hotel, container office, container house, container storage room, container showroom. We can design and produce according to your requirement, and we have provided unique creative design for our customers. We adhere to the innovative design, reasonable scheme, advanced technology for the manufacture of container; with the unique and optimal production, our container will surprise you.. We have successfully exported our products worldwide which used in south Asia, Africa, Europe & America .

Our extended container house category, TBICH705 is newly released, has fashionable appearance and much more durable decoration material which do harm to our health, has 36 sq when extending, CS703 model still popular, we just export 2 containers to Latin American with 2 storey model,

2-storey house will be gamechanger if sold in your market, We support whatever configuration you like, no matter Whether it's superimposed/stacked multilayer or side by side one layer, we can help you design and meet your demand.

Our manufacturers current monthly production capacity is 60 units per month, the lead time is 30 days after you pay 50% T/T advancement. if your following order increase, we could expand on our existing manufacturing facility

I would like to give you container's brochure and specification for reference, see attached file, please. thanks.

Happy to talk to you, Hope to be partner with you for win-win,
