Availability:	Immediate

ADDITIONAL INFORMATION

- The 144-months inspection has been accomplished in November 2022.
- Tailcone was replaced by a brand new one of latest modification (S/N 17).
- All dynamic components have been replaced at 900 h TTSN due to a sudden stop of drivetrain on ground, caused by the suction of an aircraft cover, dropped too close to the helicopter.
- Landing gear AD was done during inspection with new parts and paintwork.
- The total value of replaced parts and manpower during inspection was 250.000 €.
- The Engine is under Safran SBH.

HELICOPTER IS OPERATIVE SO PROVIDED DETAILS MAY VARY AND ARE SUBJECT TO BUYER'S INSPECTION
