

COMMERCIAL PROPOSAL: Portfolio of 11 Airbus Jet Aircraft

We are pleased to presents this commercial proposal for the potential sale of a select portfolio of eleven (11) Airbus jet aircraft. This curated list includes both new and used models, offering a range of options for operators seeking to expand or modernize their fleet.

We are prepared to provide detailed specifications, maintenance histories, and current technical status for each asset to seriously interested parties under the following framework.

a. Aircraft Portfolio Overview

This offering comprises a diverse mix of 11 Airbus aircraft. A preliminary list of available models and key data (including Year of Manufacture, Serial Numbers, and Engine types) can be furnished upon receipt of a qualifying Letter of Intent.

b. Pricing & Terms

A formal and detailed pricing offer for the entire portfolio or for individual units will be issued upon request, contingent upon the prior receipt of a signed Letter of Intent.

c. Critical Prerequisite for Further Engagement

To ensure we are engaging with parties demonstrating serious intent and to safeguard the time and resources of all involved, we have implemented the following mandatory prerequisite for all inquiries:

We require a signed Letter of Intent (LOI) on your company's official letterhead before we can disclose specific aircraft availability, detailed specifications, or firm pricing.

The LOI should, at a minimum, include:

- The specific Airbus model(s) of interest from our portfolio.
- A clear expression of intent to purchase, contingent solely on the verification of aircraft records and a satisfactory pre-purchase inspection.
- Proposed key commercial terms (e.g., offering price).
- The intended timeline for transaction closure.
- Full company details and the signature of an authorized representative.

This policy is a direct result of numerous unproductive inquiries that have strained our relationships with trusted suppliers. It allows us to dedicate our full attention and resources to committed buyers.

d. Next Steps

Interested and qualified parties are requested to:

1. Submit a signed Letter of Intent as described above.
2. Upon our review and acceptance of the LOI, we will immediately provide the detailed aircraft specifications, current status, and our formal price quotation.
3. We will then proceed to finalize the Sale and Purchase Agreement and facilitate the inspection process.
