# 2022 GULFSTREAM G500

## ABOUT THIS 2022 GULFSTREAM G500

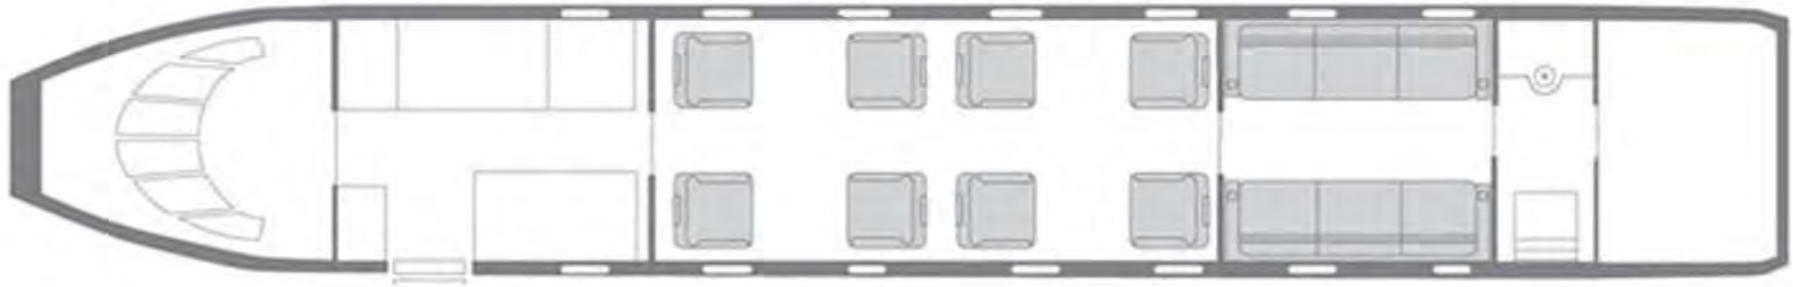

EXCLUSIVE 2022 GULFSTREAM G500: This is a rare opportunity to acquire a pre-owned aircraft at a pre-owned price — with the option to take delivery in near-new condition. This Gulfstream G500 combines low utilization, full program coverage and an optional interior refresh included in the asking price, allowing the next owner to personalize the cabin without compromising value. Delivered new in March 2022 and flown only 1,481 hours, this one-owner, never-chartered G500 was specified with over \$1.5 million in factory options, including Jet ConneX Ka-band high-speed internet, stone flooring, quartz countertops, and powered seating for up to 13 passengers. The aircraft's distinctive exterior concept was conceived by VOS DESIGN, blending aviation precision with modern artistic expression. Recognizing that design preferences are personal, the aircraft is offered with two interior options: the original, as-delivered cabin, and an optional alternative interior concept shown as a visualization, proposing updated materials for sidewalls, carpet and bulkheads. This optional material refresh is included in the asking price and would be professionally executed by Jet Aviation. Still covered by active Gulfstream warranties and enrolled on engine and APU programs, this G500 represents a turnkey, low-risk entry into near-new ownership — presented exclusively by JETY.
